CONVEYOR TECH

EQUIPMENT TRADING.LLC

who we are:

we are specialize in fabrication and distribution of conveyor belting and industrial conveyor products, we focus on providing value-added products and services through full service sales and fabrication facility by our experience and qualified staff, we offer innovative products and solutions for demanding requirements in various industries

TABLE OF CONTENTS:

• CONVEYOR TECH:

1. PROJECTS:

- conveyor system
- steel fab
- automation
- safety items
- engineering solutions

2. BELT CONVEYOR:

- flat belt
- modular belt
- ss. mesh
- chain belt
- Rubber belt
- Timing belt

CONVEYOR BELTS

conveyor belt are available with different surface structures for various fields of application & assembled according to customer requirements.

PU BELT

PVC BELT

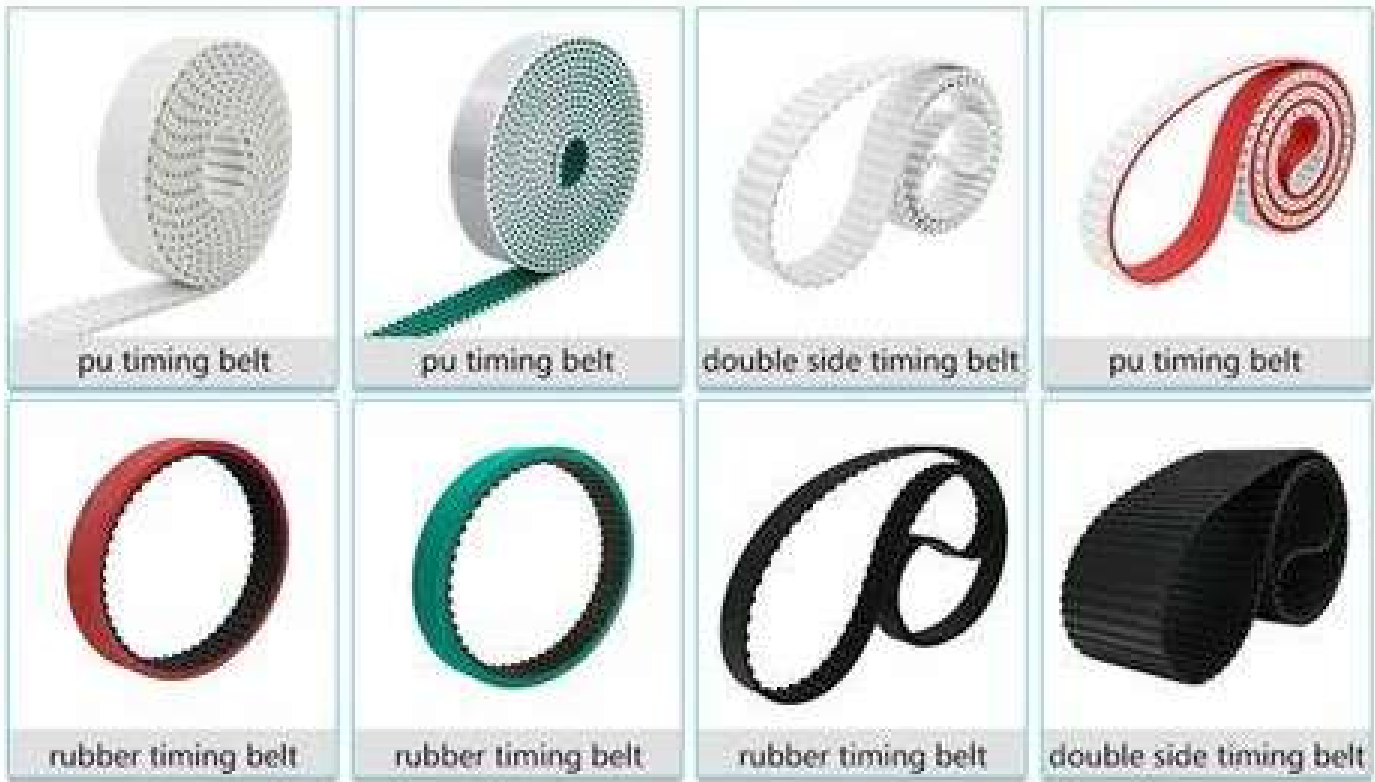

MOUDLAR BELT

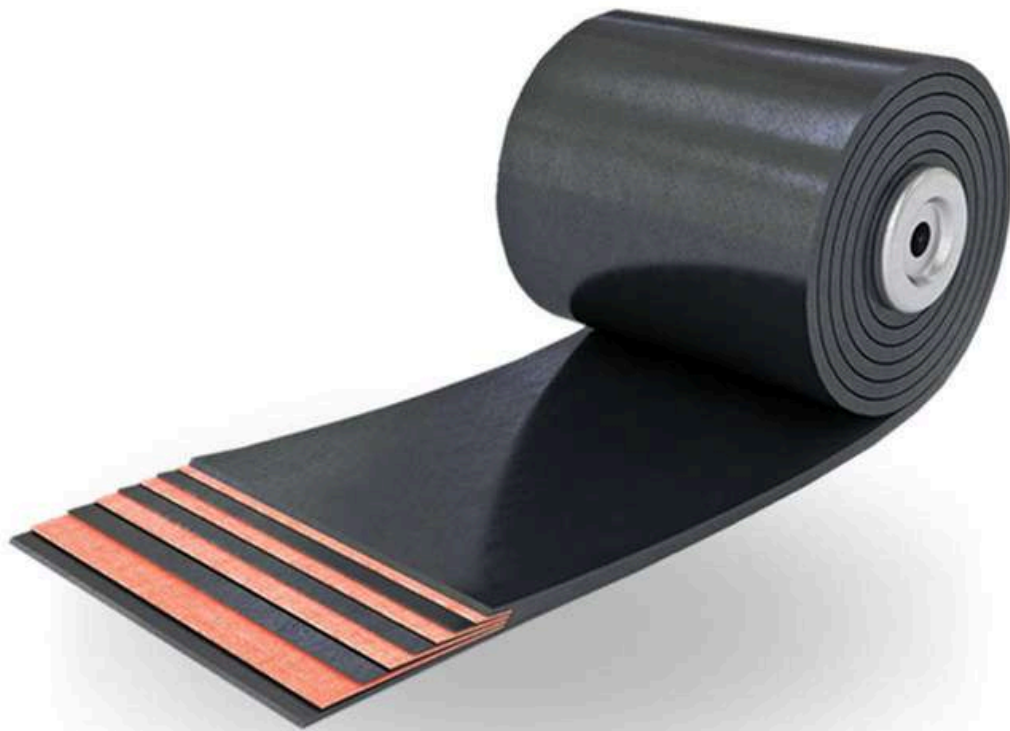

BELTS

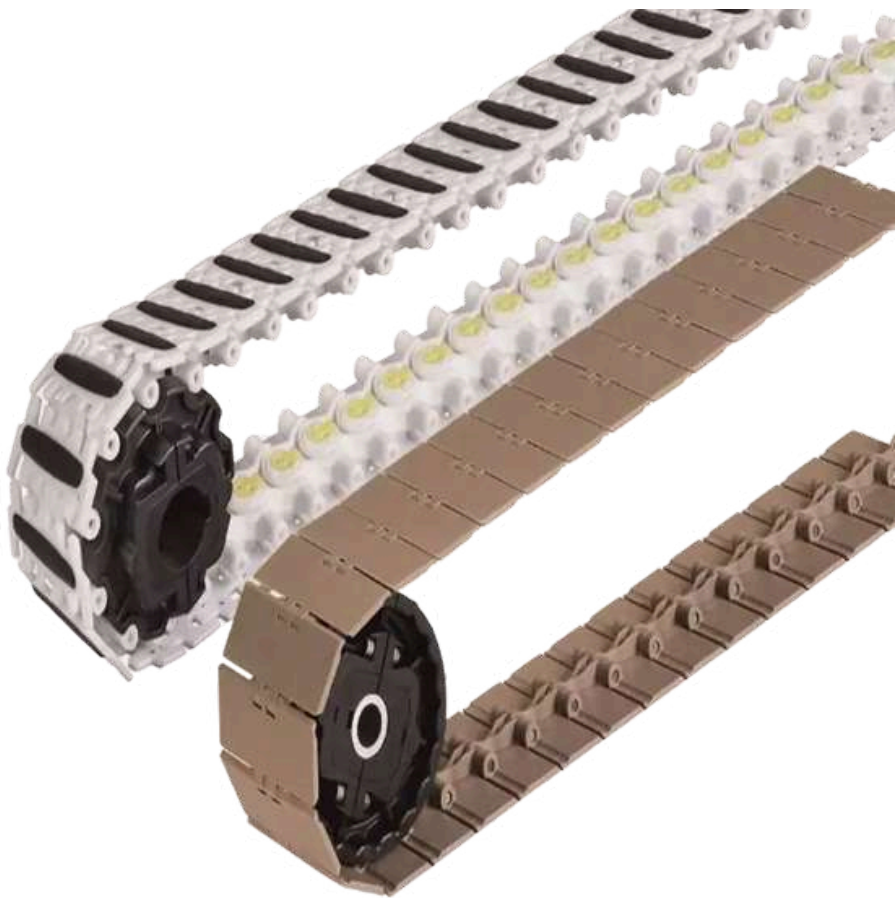

SS.MECH

TIMING BELTS

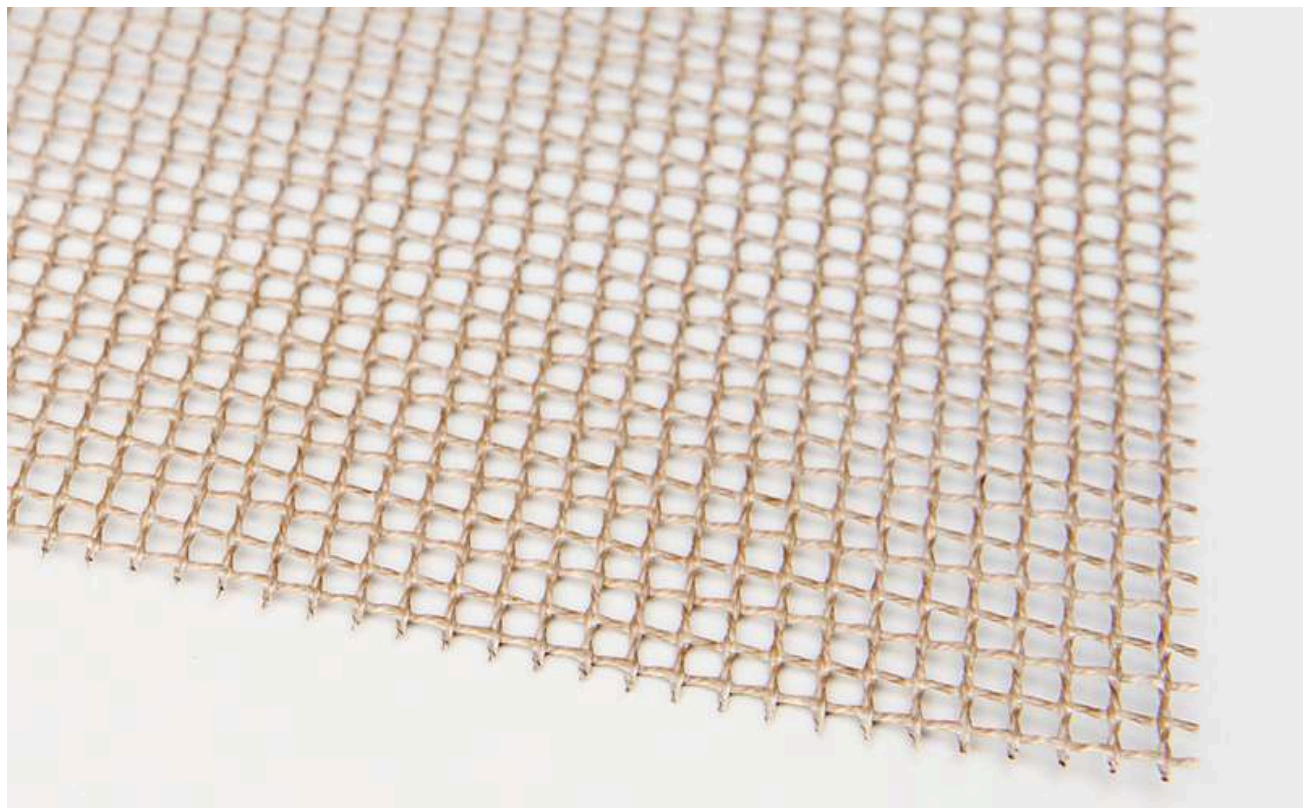

WOVEN BELTS

CHAIN BELT

FILTER BELT

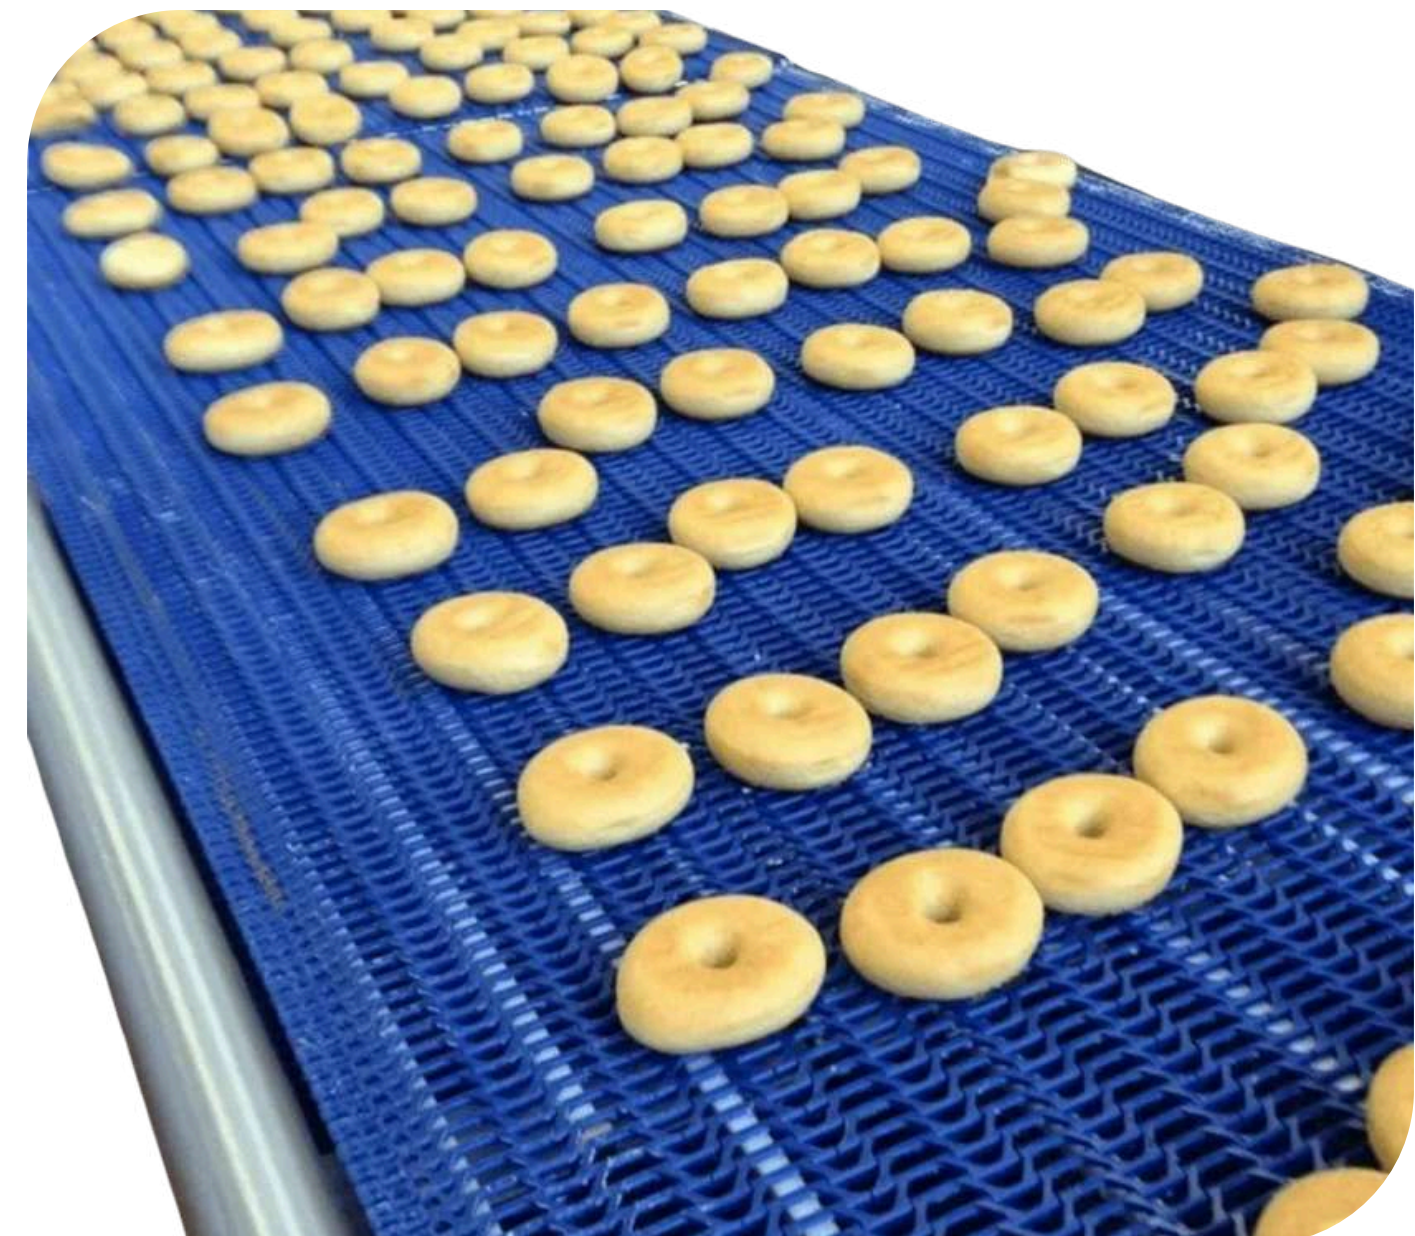

TEFLON BELT

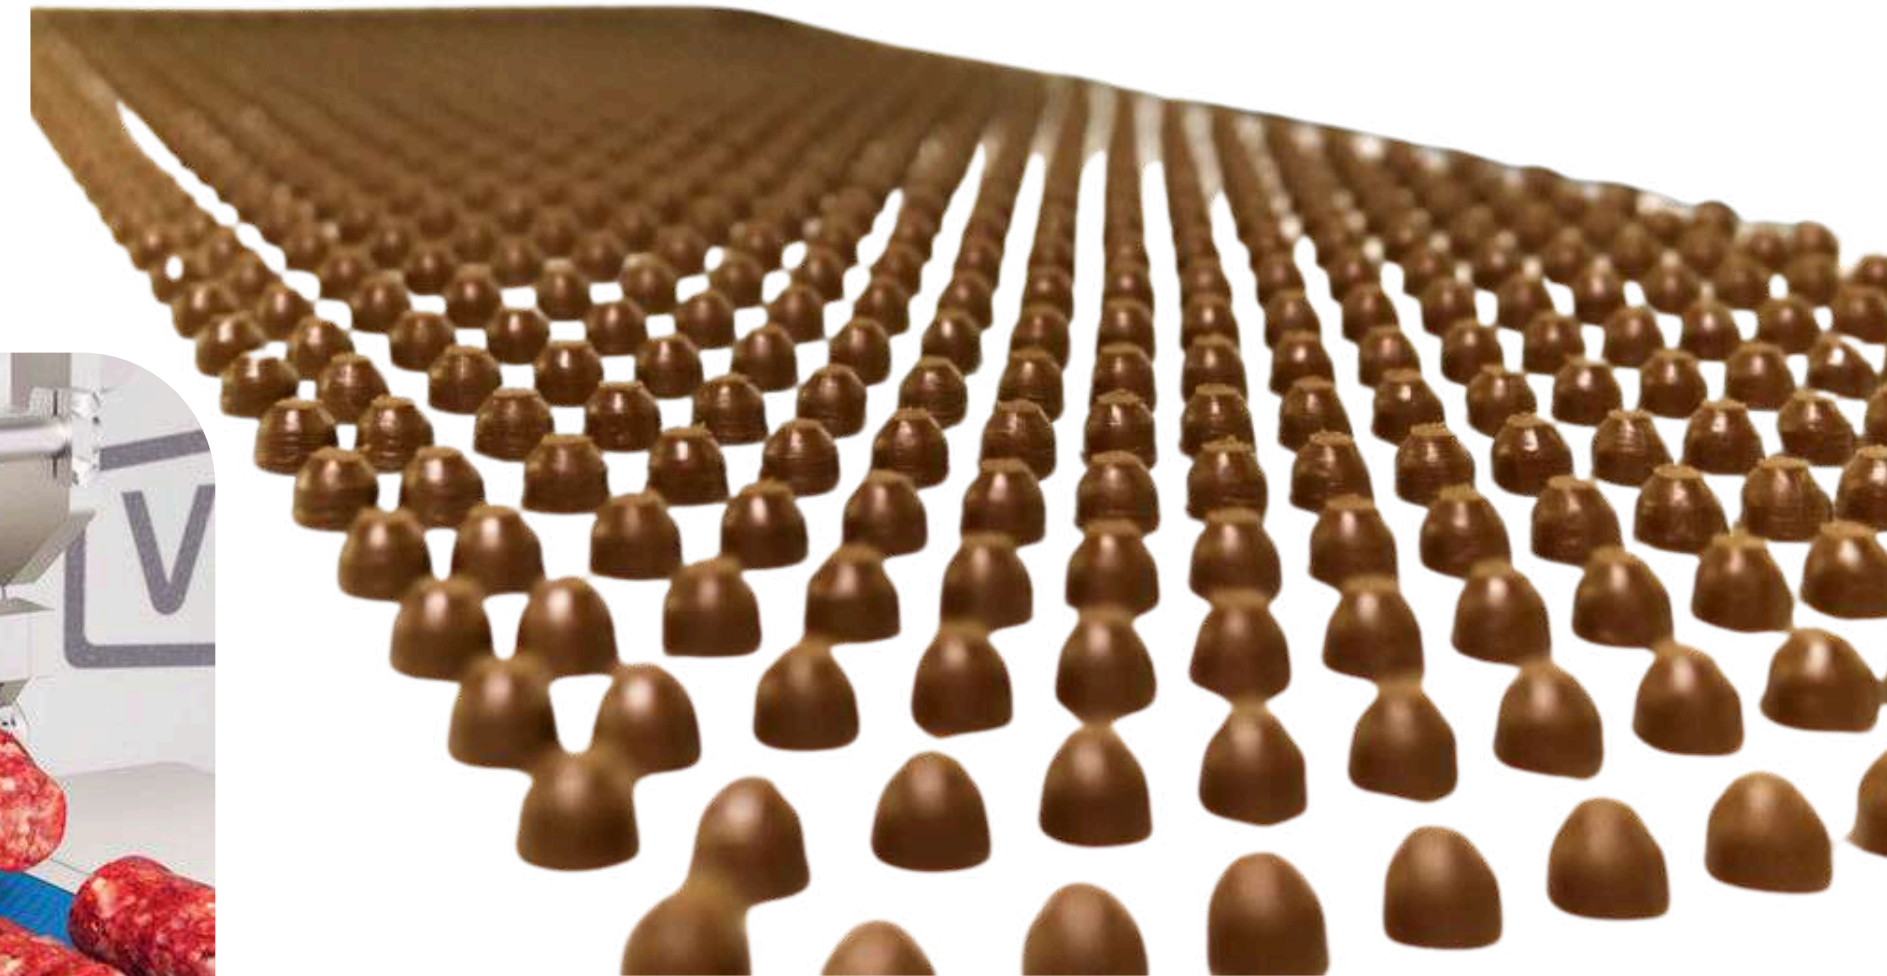

OUR SERVICES

1. FOOD AND BAKERY INDUSTRY

All our food straps are provided with necessary & internationally recognized certificates & meet the highest hygienic standards.

1. FOOD AND BAKERY INDUSTRY

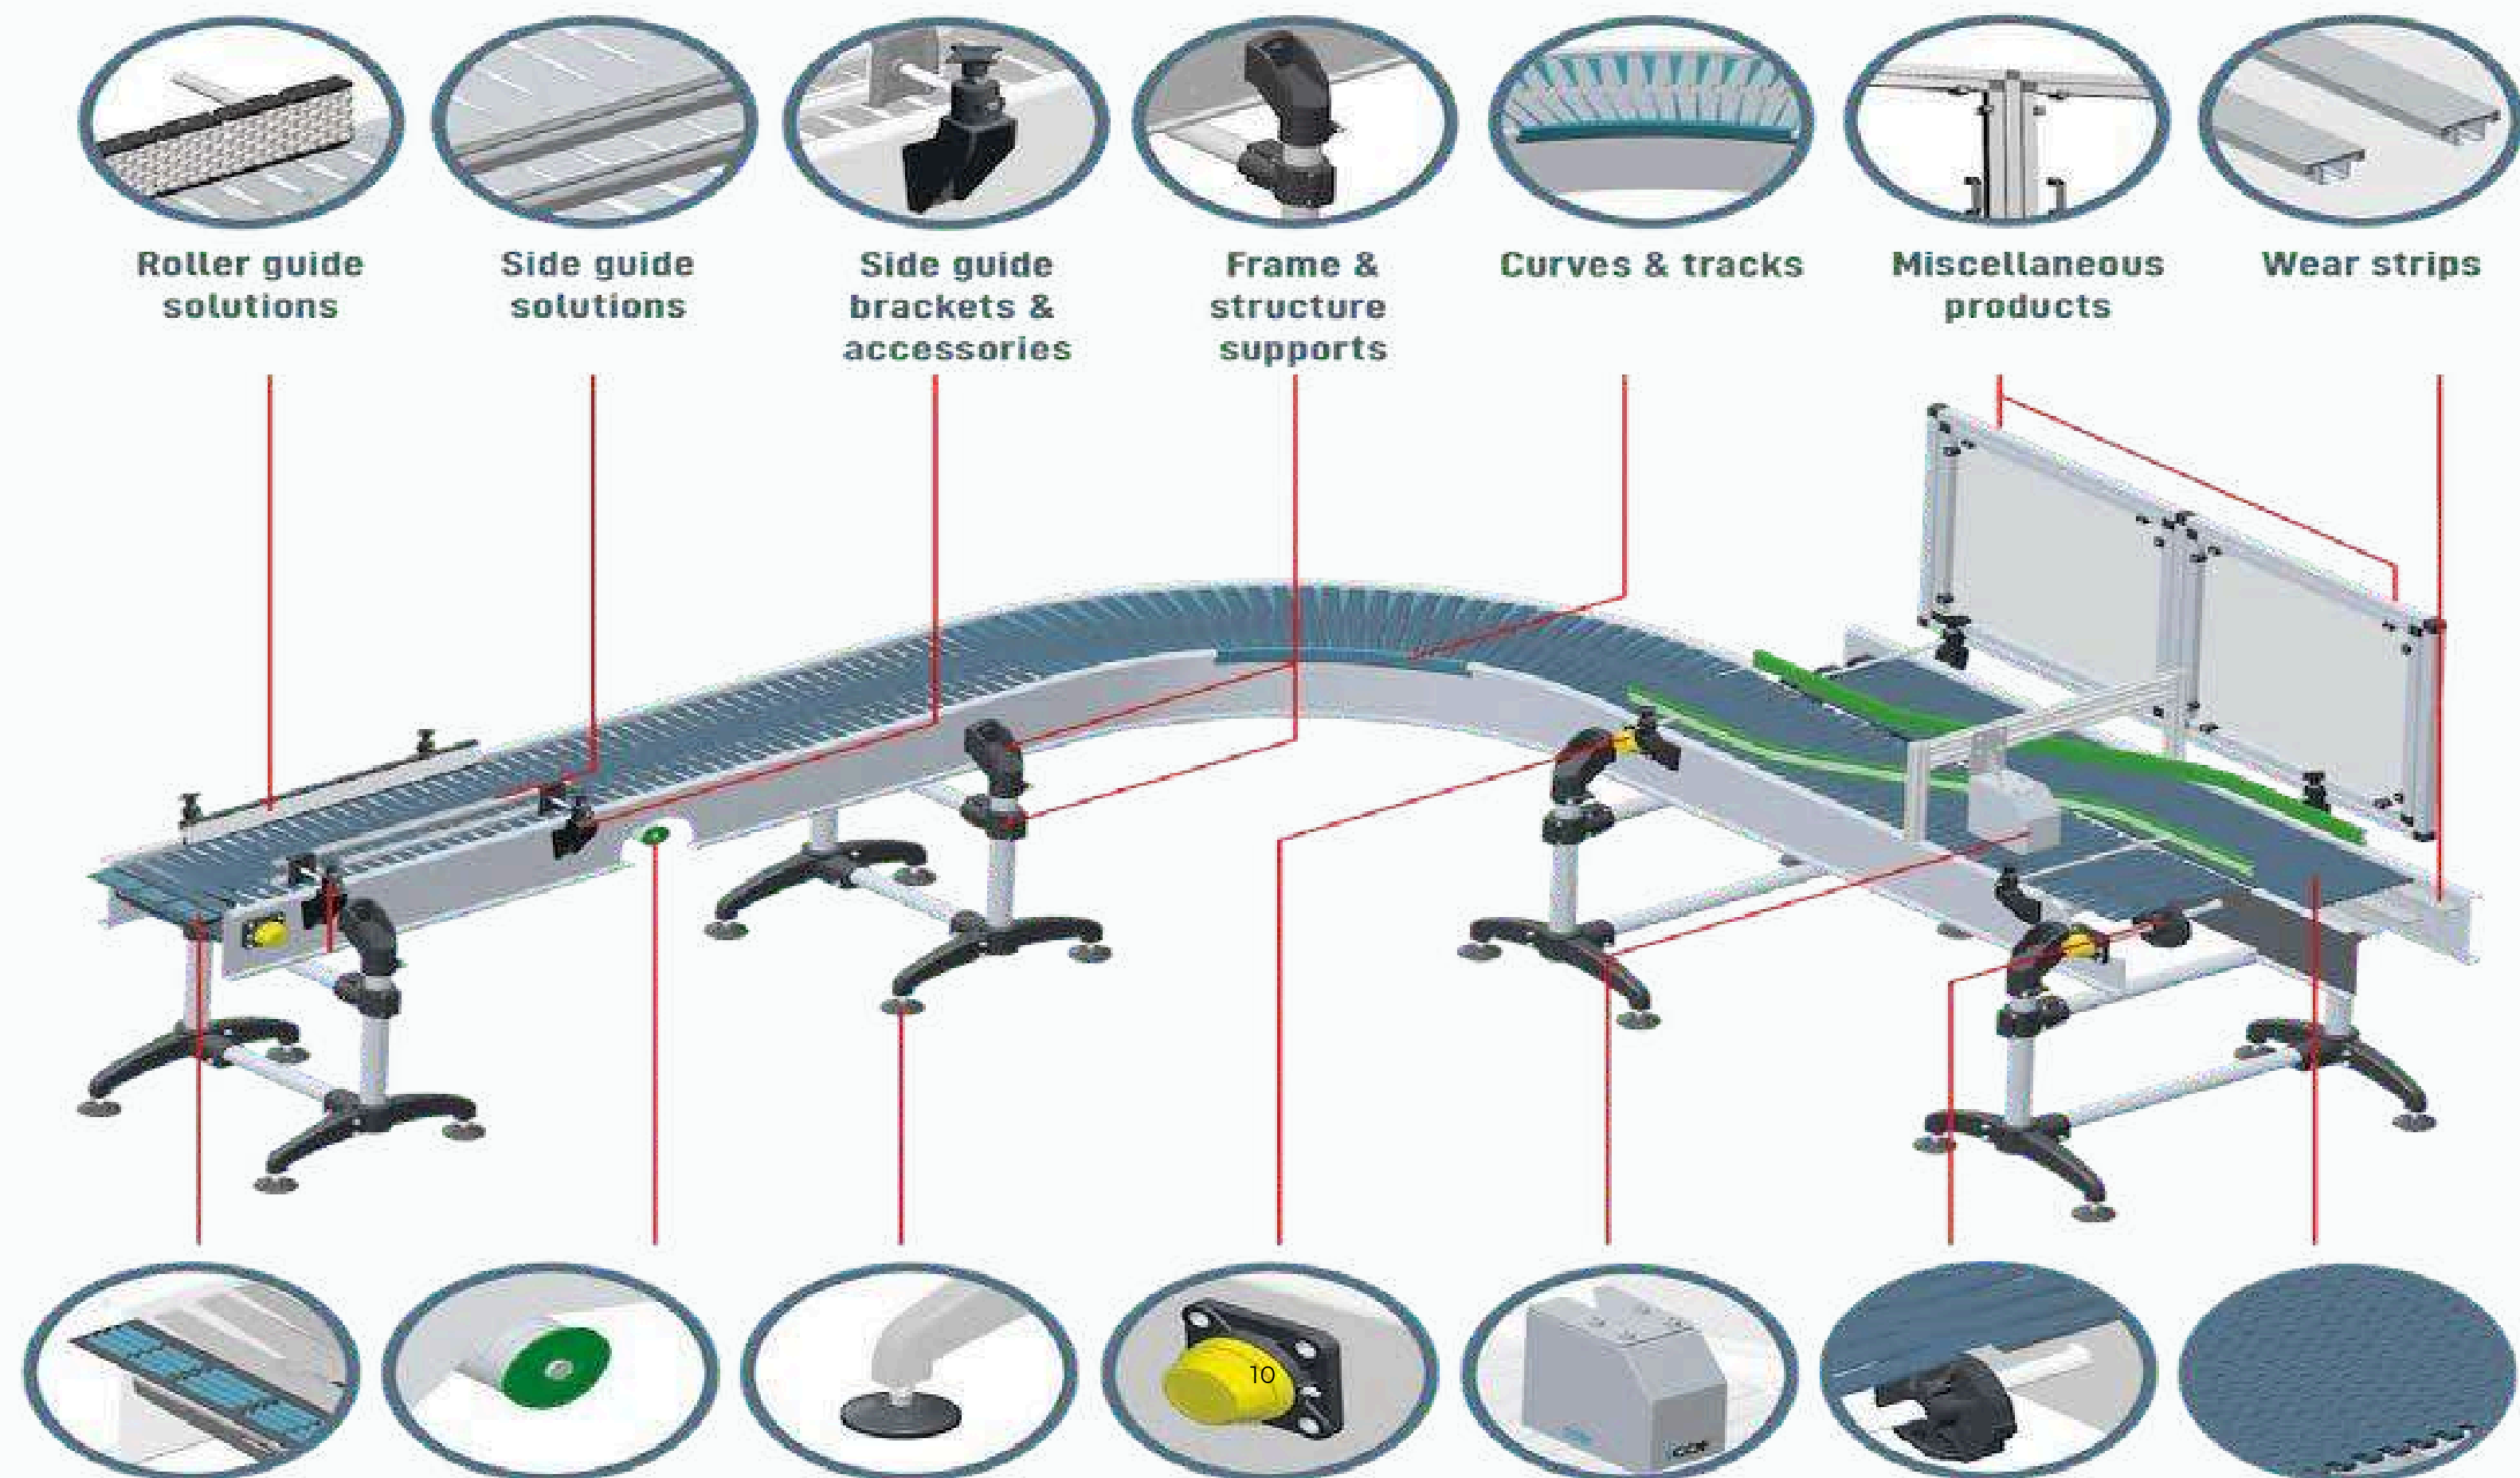

2. BEVERAGE INDUSTRY

our range of products are FDA/EC-approved, complied with HACCP requirements, we offer a range of hygiene standards products

- **product range:**

1. modular
2. plastic chain
3. all types of conveyor accessories

2. BEVERAGE INDUSTRY

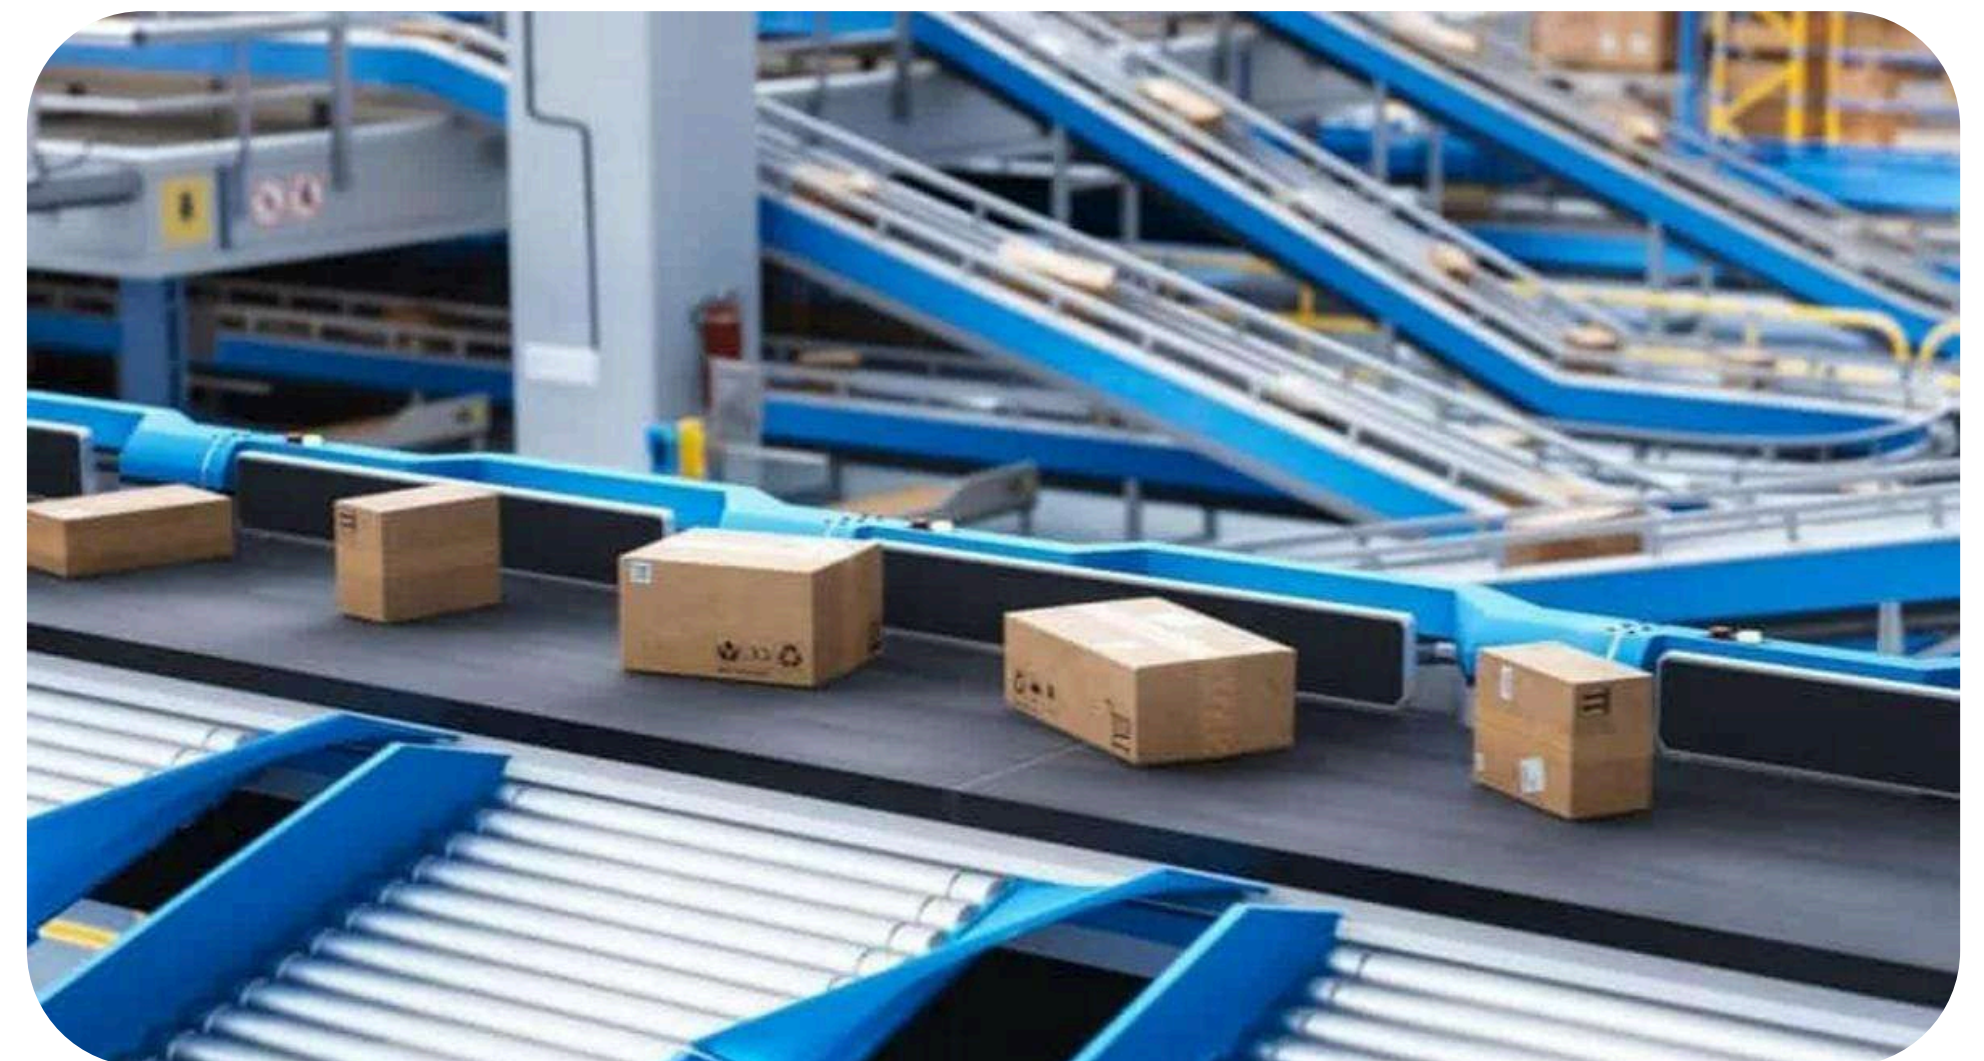

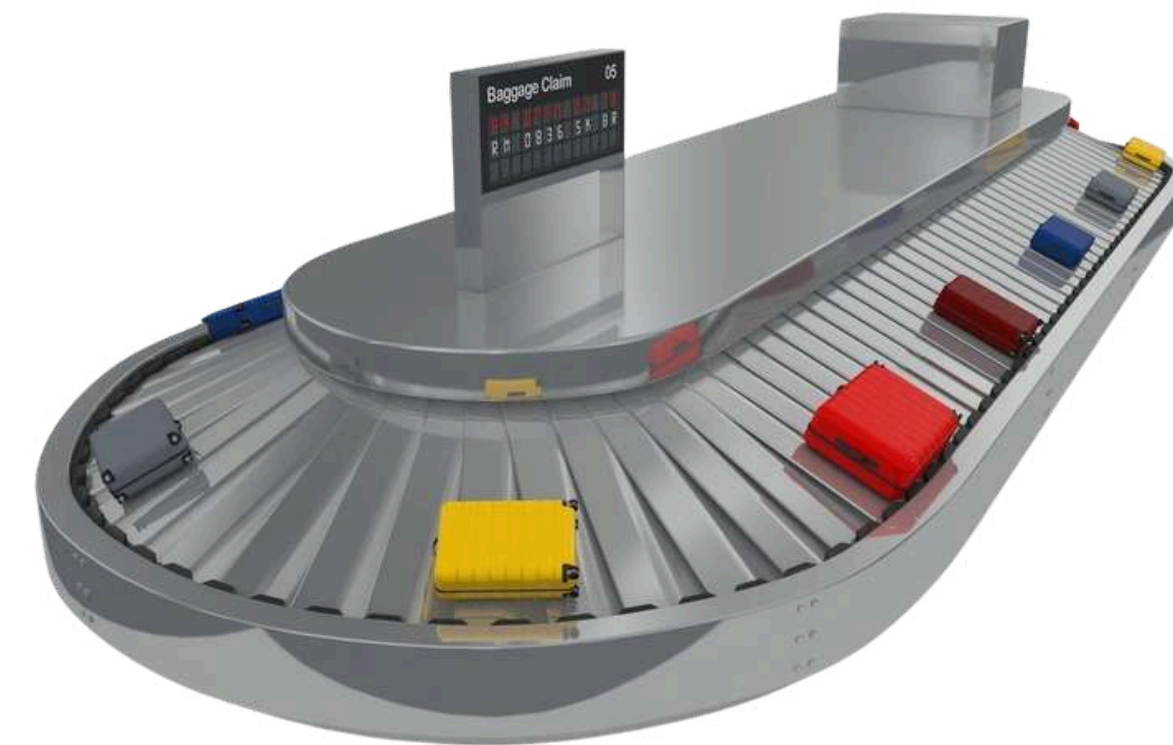

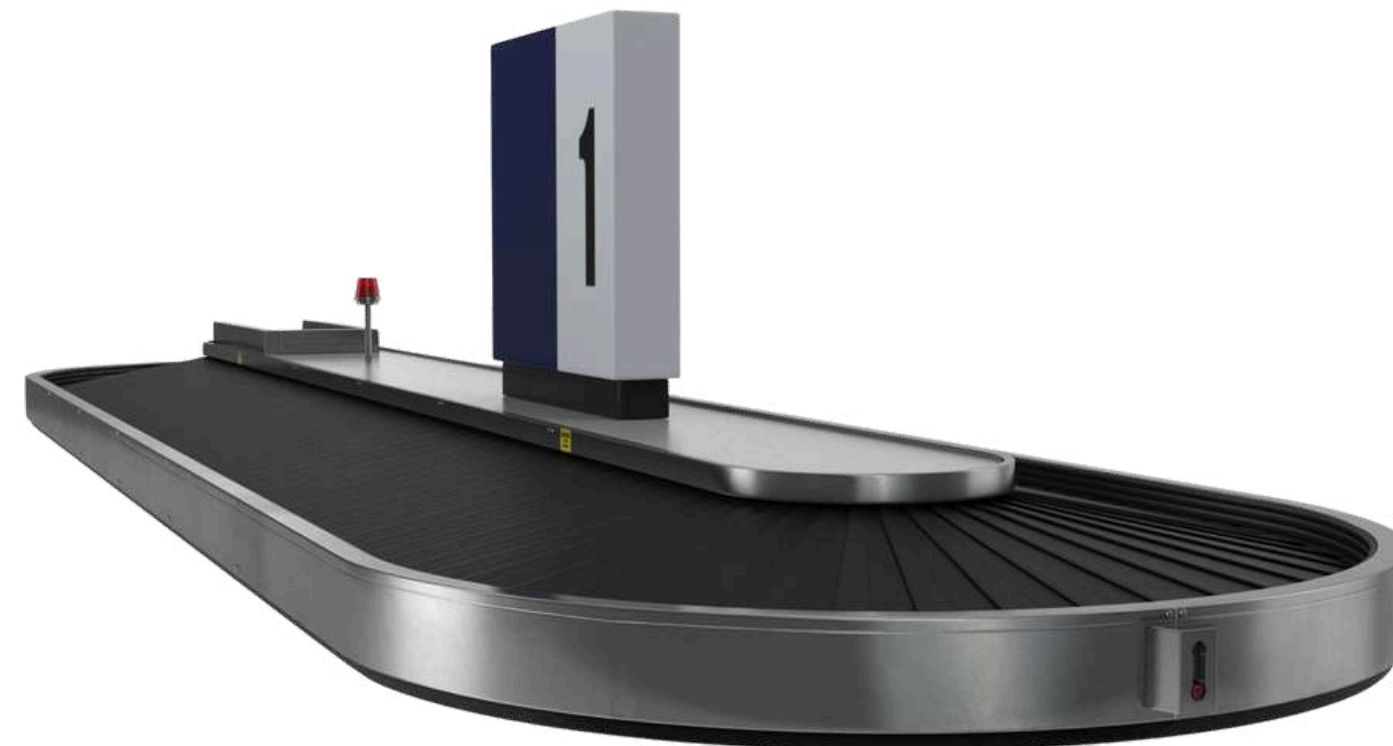

3. LOGISTICS & AIRPORT

we offer a wide range of products which is suitable for any type of application in airport sector

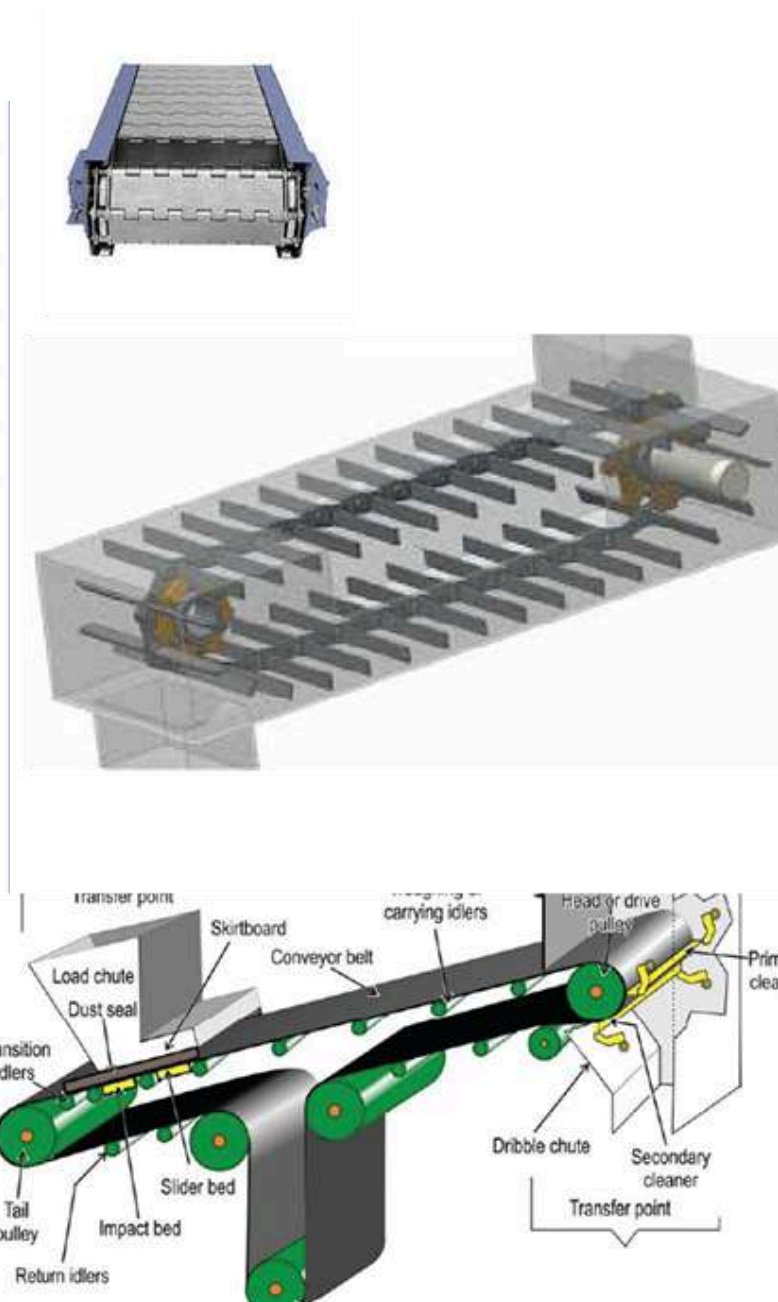

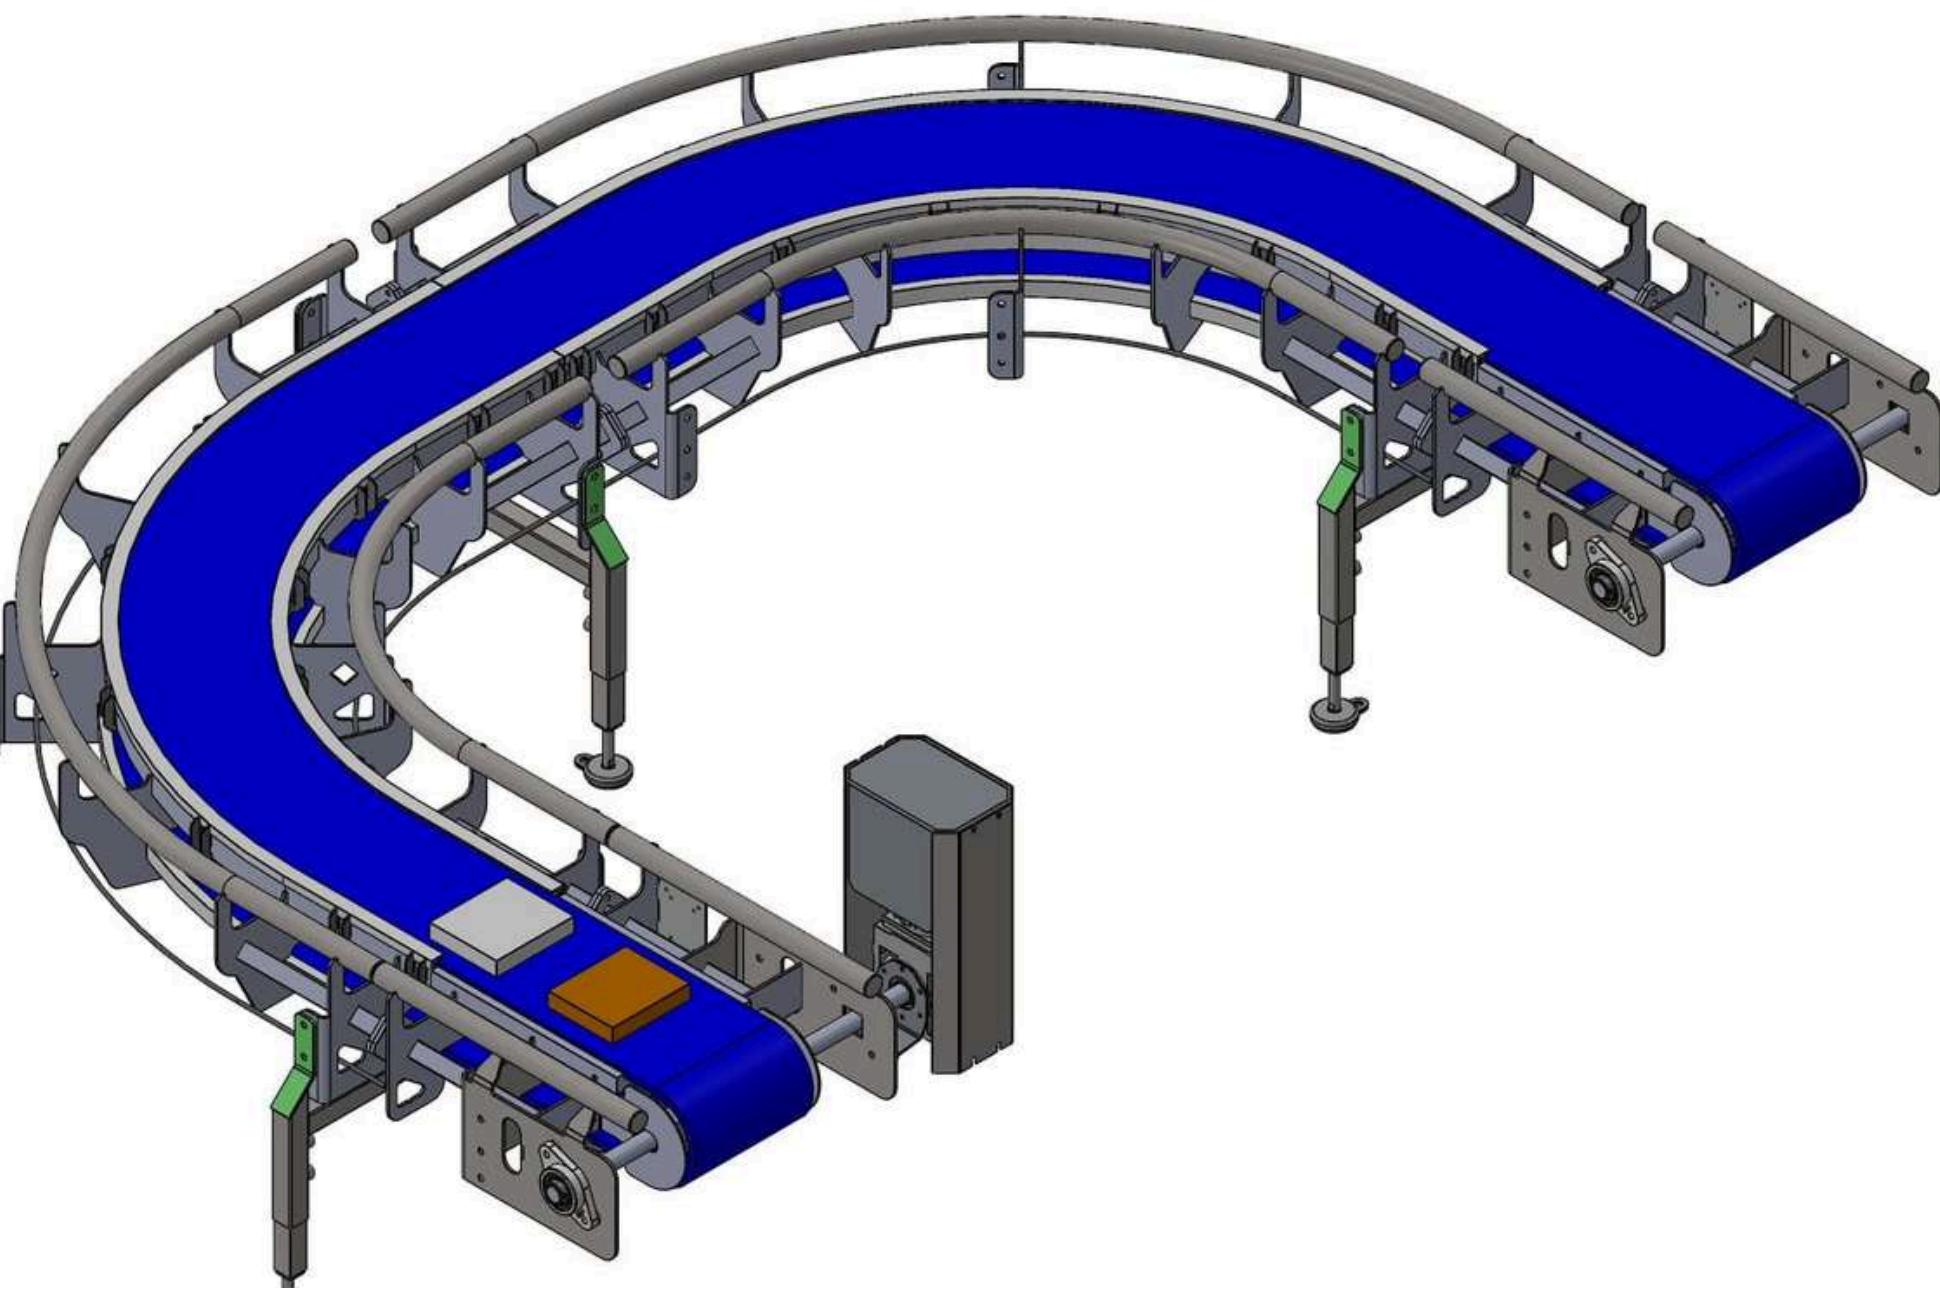

3. LOGISTICS & AIRPORT

CONVEYOR PROJECTS:

1. CONVEYOR SYSTEM

Conveying System

Inclined Belt Conveyor

Flat Belt Conveyor

Cleated Belt Conveyor

Portable Belt Conveyor

CONVEYOR PROJECTS:

1. CONVEYOR SYSTEM

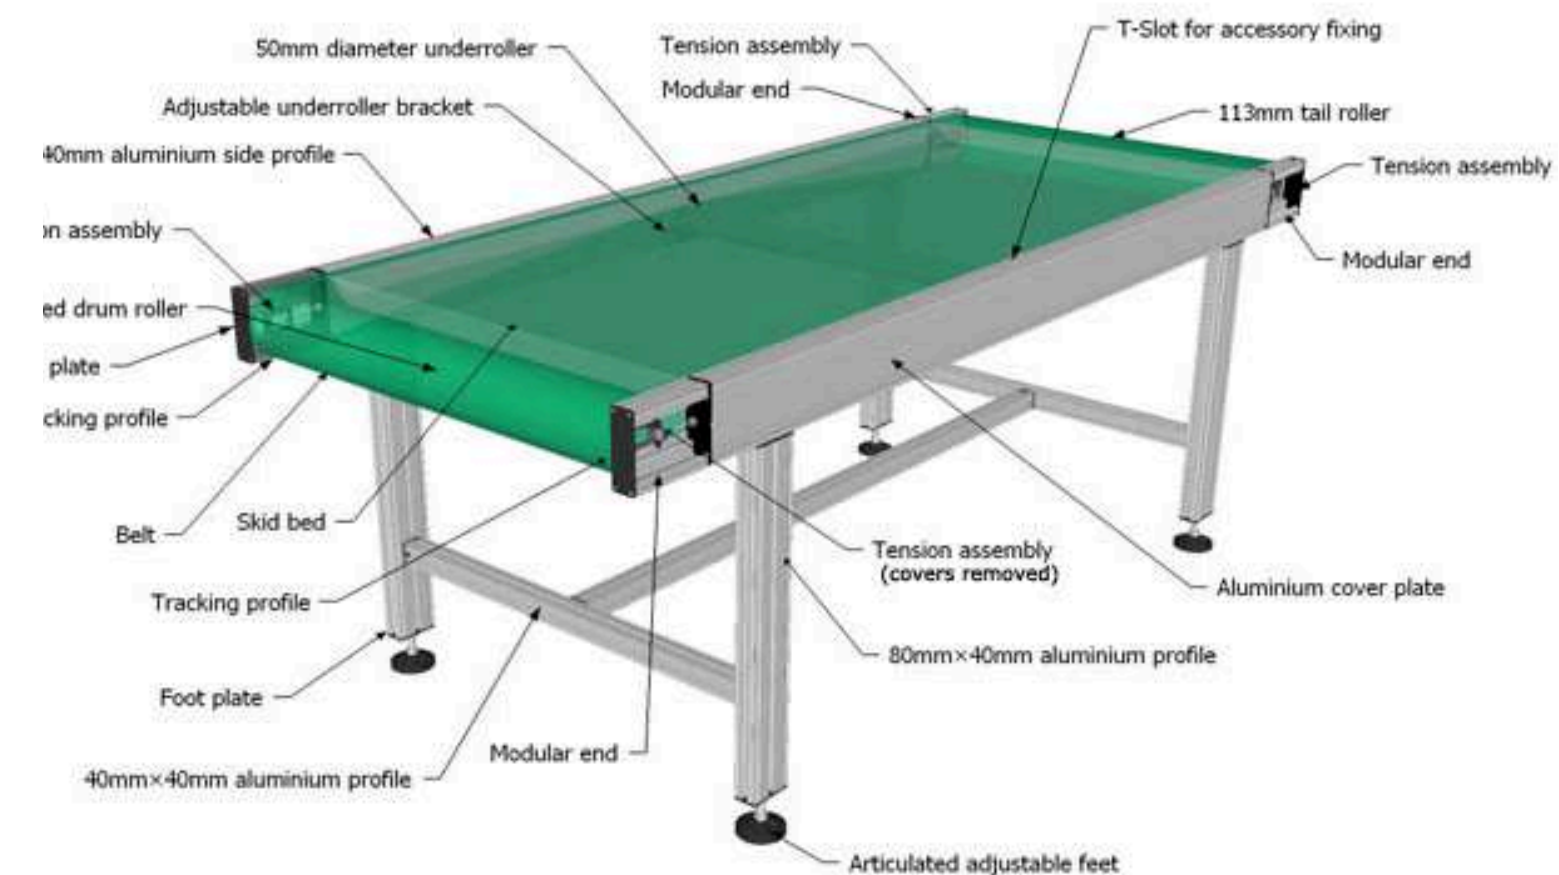

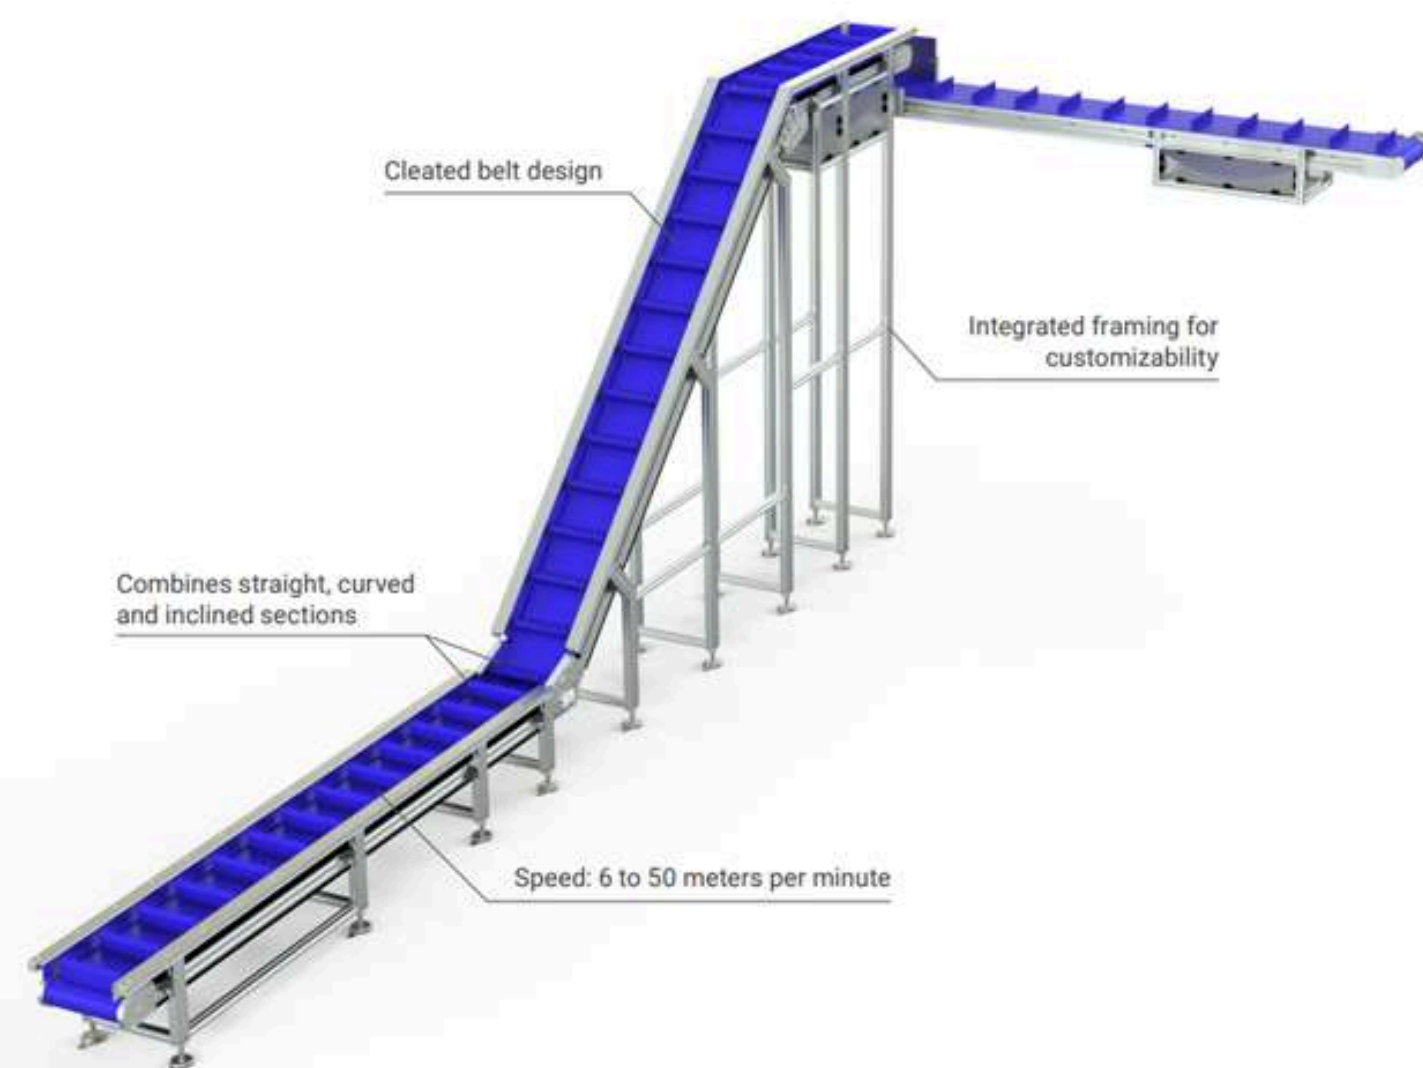

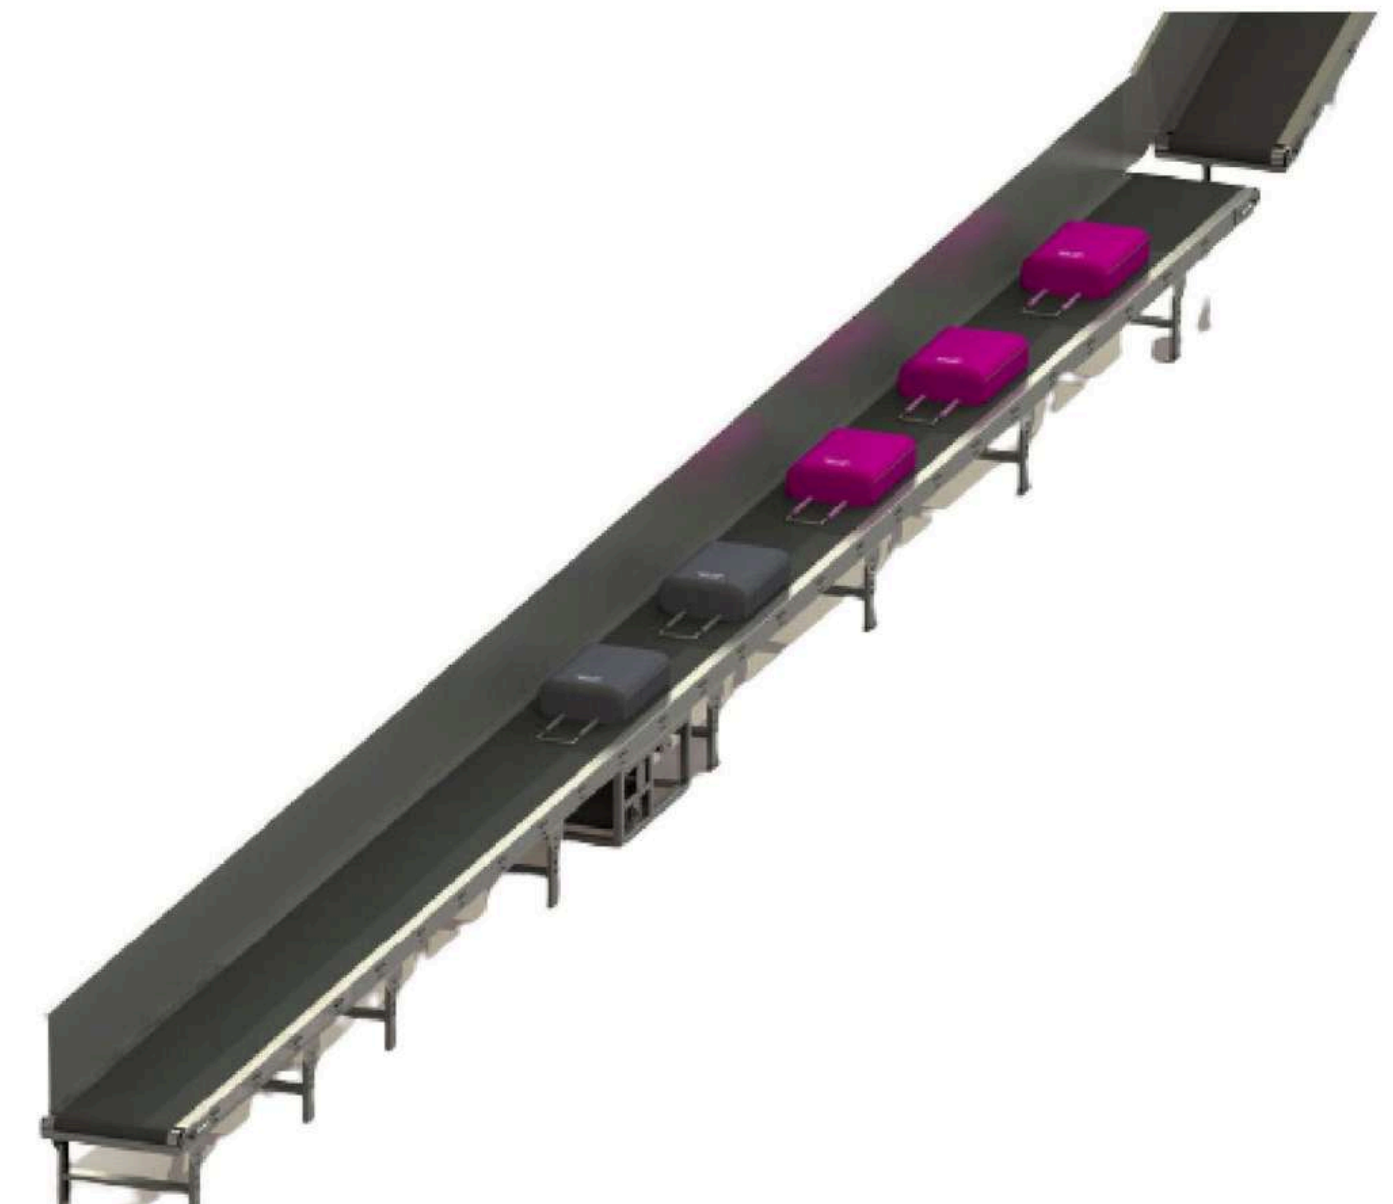

Belt Conveyor in the Liming Industry

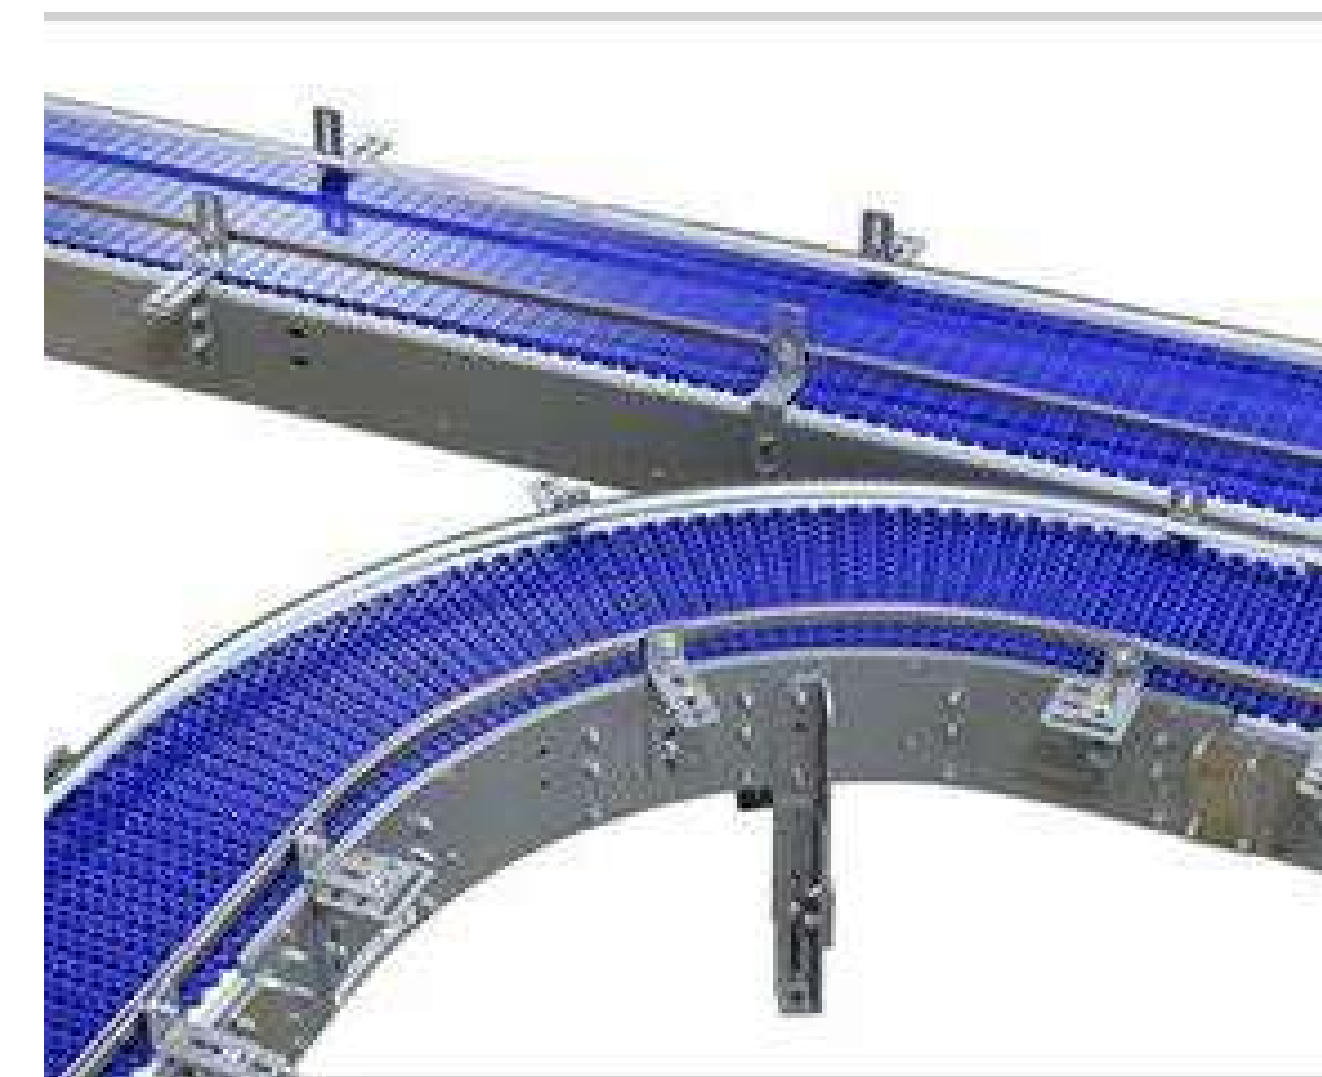

Flat Belt Conveyor Belt

Airport Belt Conveyor System

PVC BELT

CONVEYOR ACCESSORIES

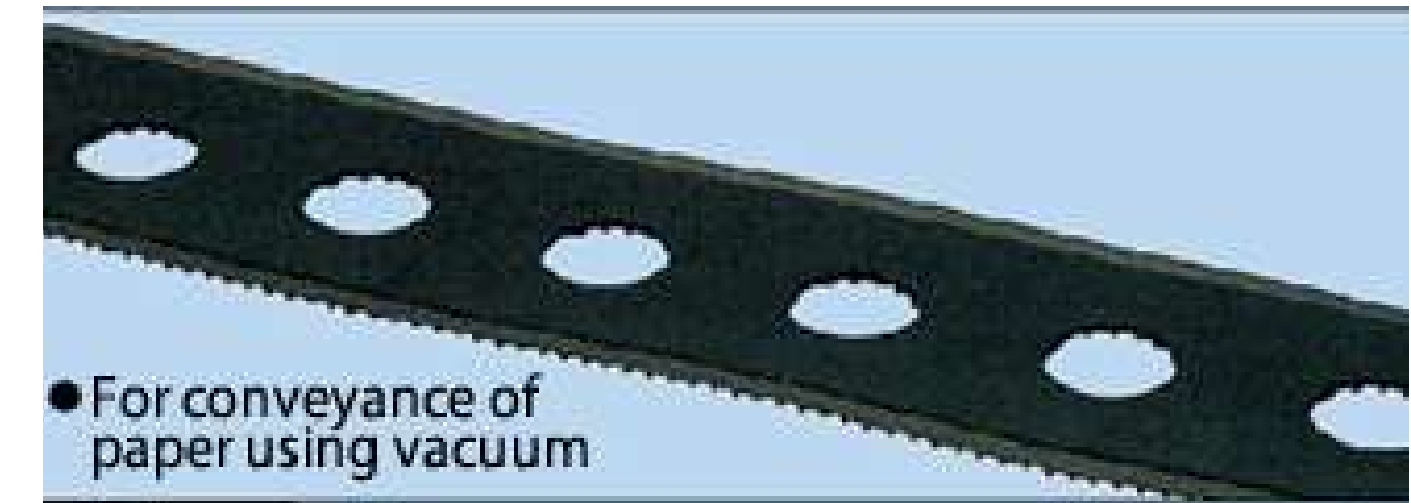

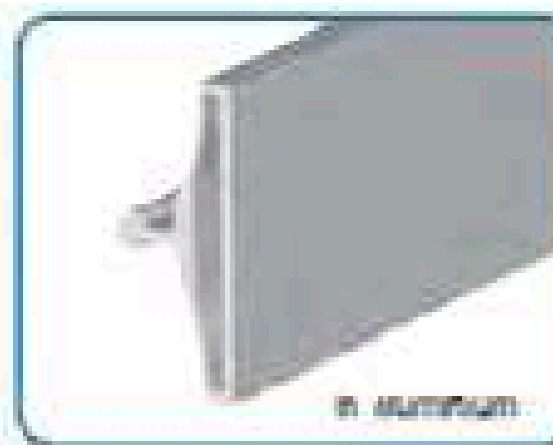

CONVEYOR ACCESSORIES

BPA - PLATE STYLE
BPA is designed to be placed on an existing work table, scissor table or cart.

BPB - DEEP PLATE STYLE
Designed as a free-standing transfer table. with smooth edges. Accepts standard LEWCO SPM and SPH series supports.

BPC - CONVEYOR FRAME STYLE
BPC is built as a complete section to be utilized as a free standing unit or coupled to existing sections of gravity roller conveyor.

BPD
DROP IN CONVEYOR FRAME STYLE
BPD is designed to replace rollers in existing sections of gravity roller conveyor and is typically used as a transition/positioning area.

WRA - MEDIUM DUTY PALLET RAIL
WRA's opposing channels offer a sturdy configuration to cover longer spans.

WRB - HEAVY DUTY PALLET RAIL
WRB's opposing channels offer a sturdy configuration to cover longer spans, while the staggered wheel pattern conveys irregularly shaped loads.

WRE - MEDIUM DUTY RAIL FOR TOTES, BOXES, CARTONS
The angle frames on WRE are ideal for floor mounted applications and narrow spaces.

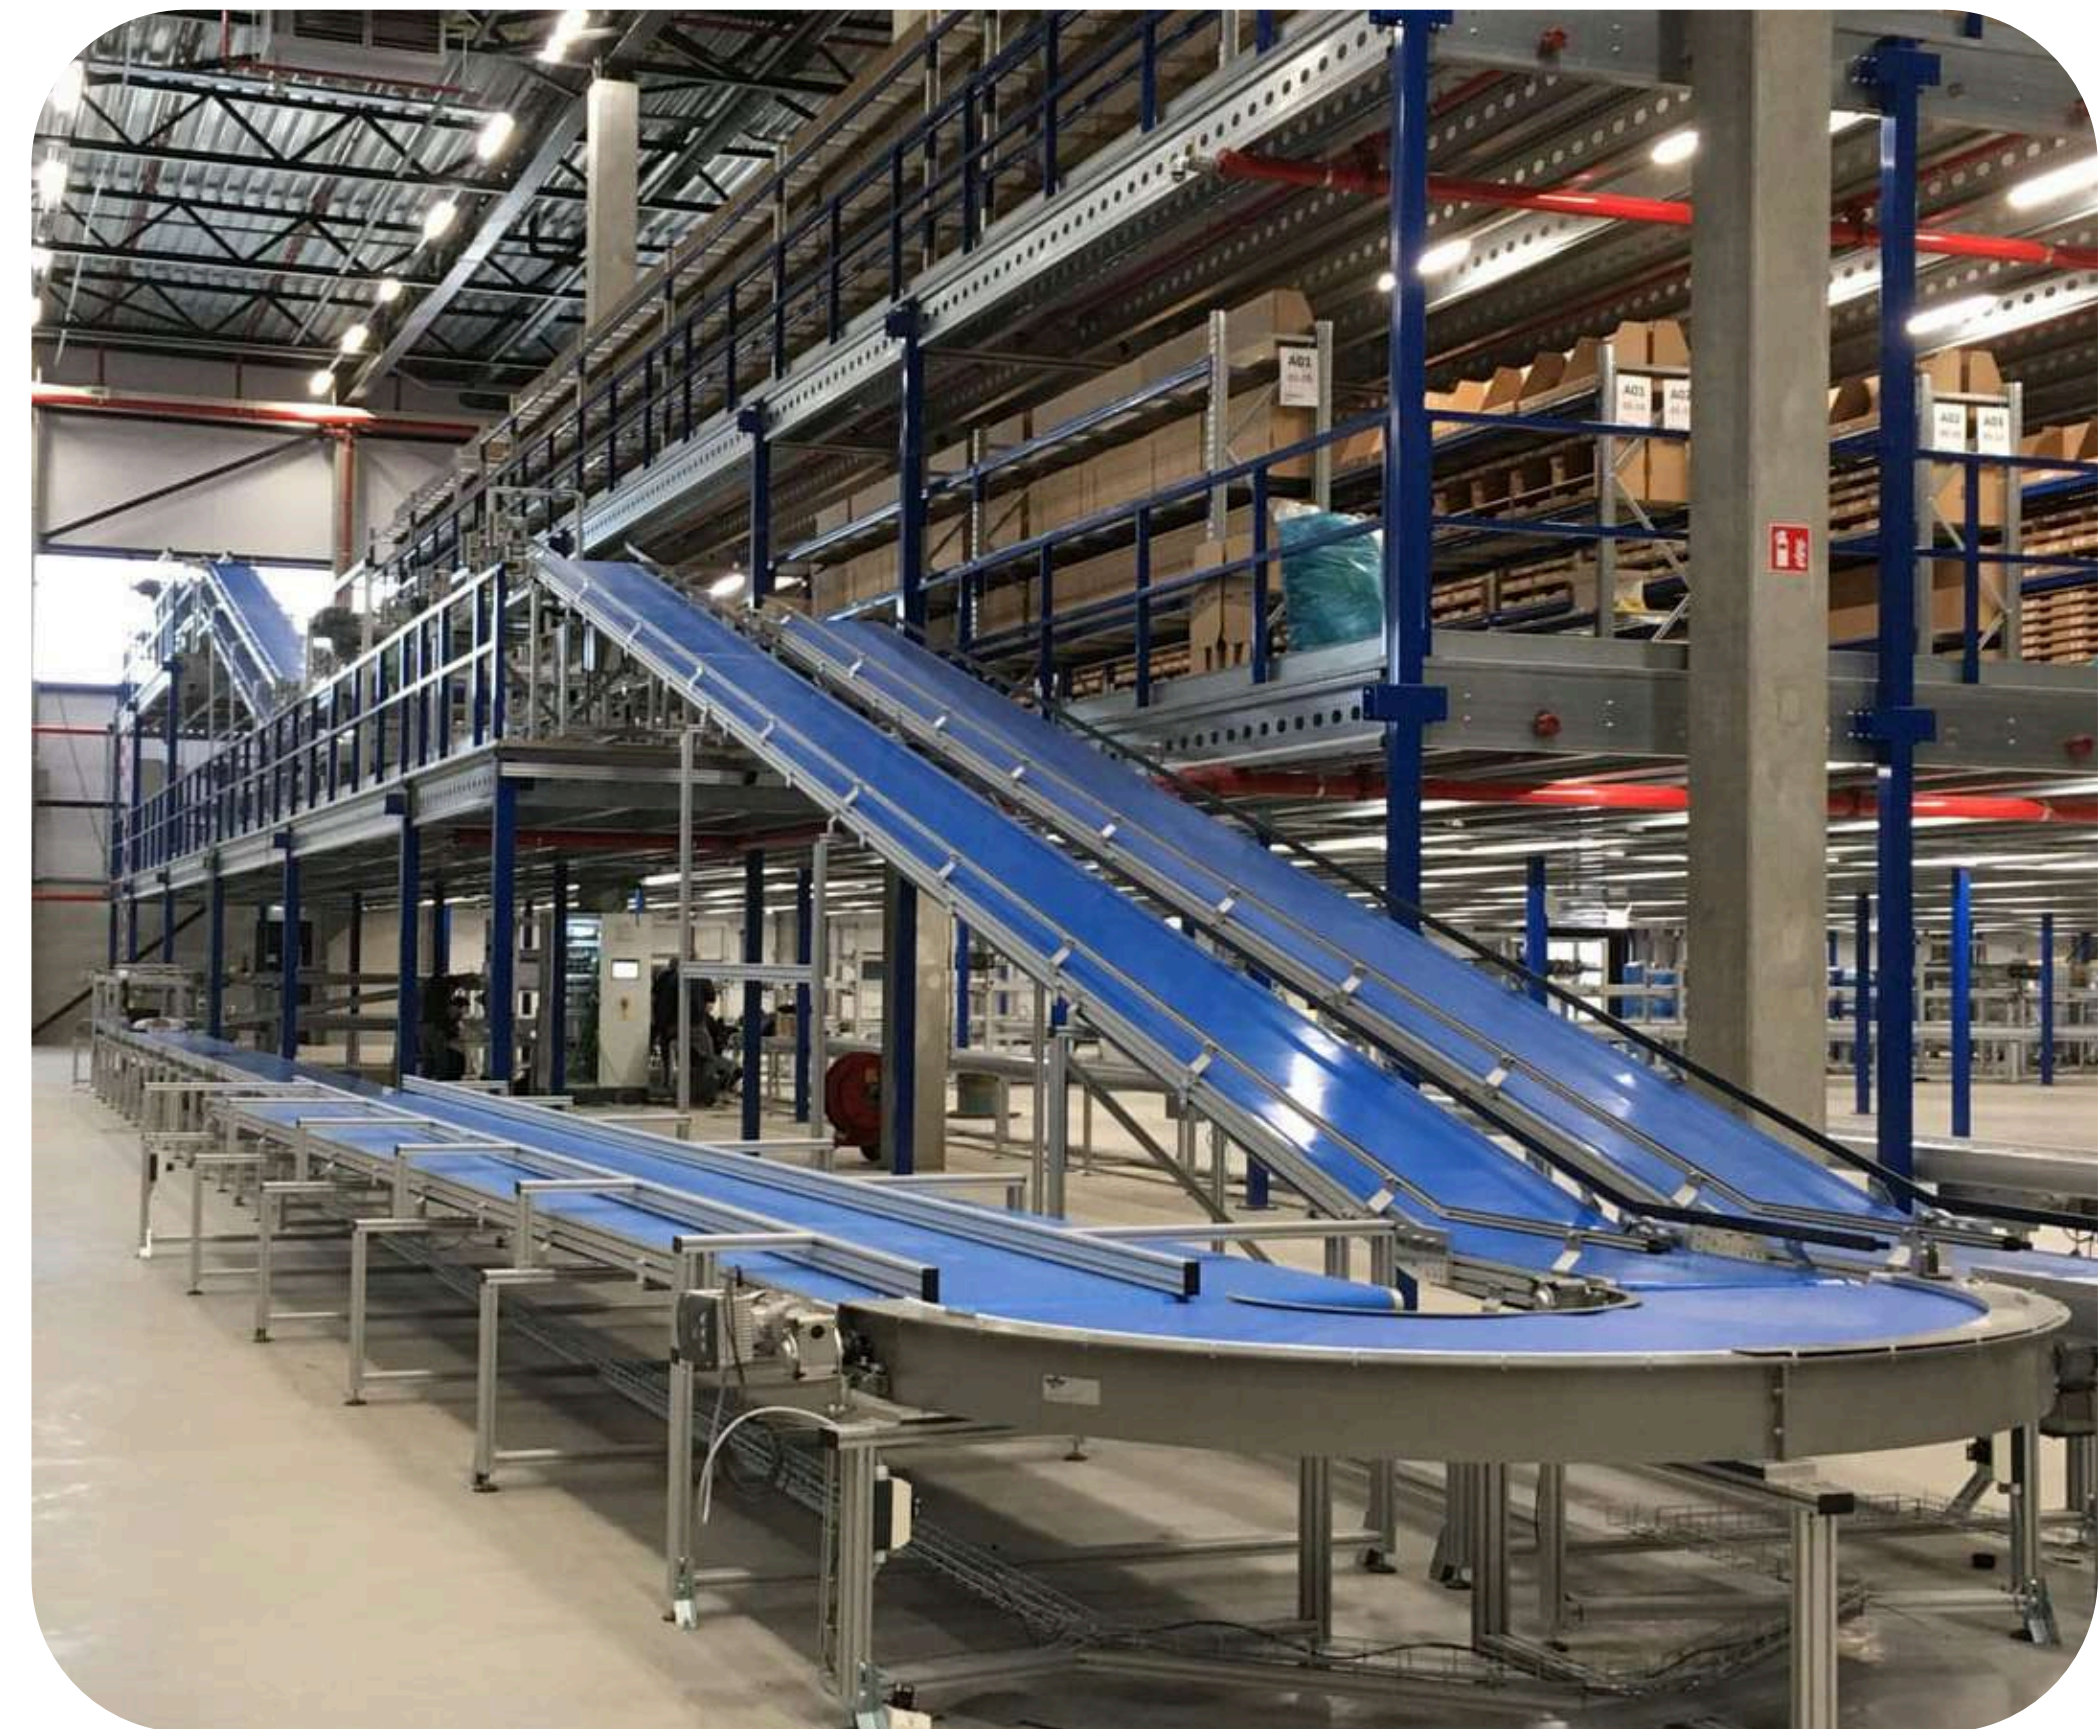

WRF - HEAVY DUTY RAIL FOR TOTES, BOXES, CARTONS
The angle frames are also ideal for floor mounted applications, while opposing angles offer a sturdy configuration to cover longer spans.

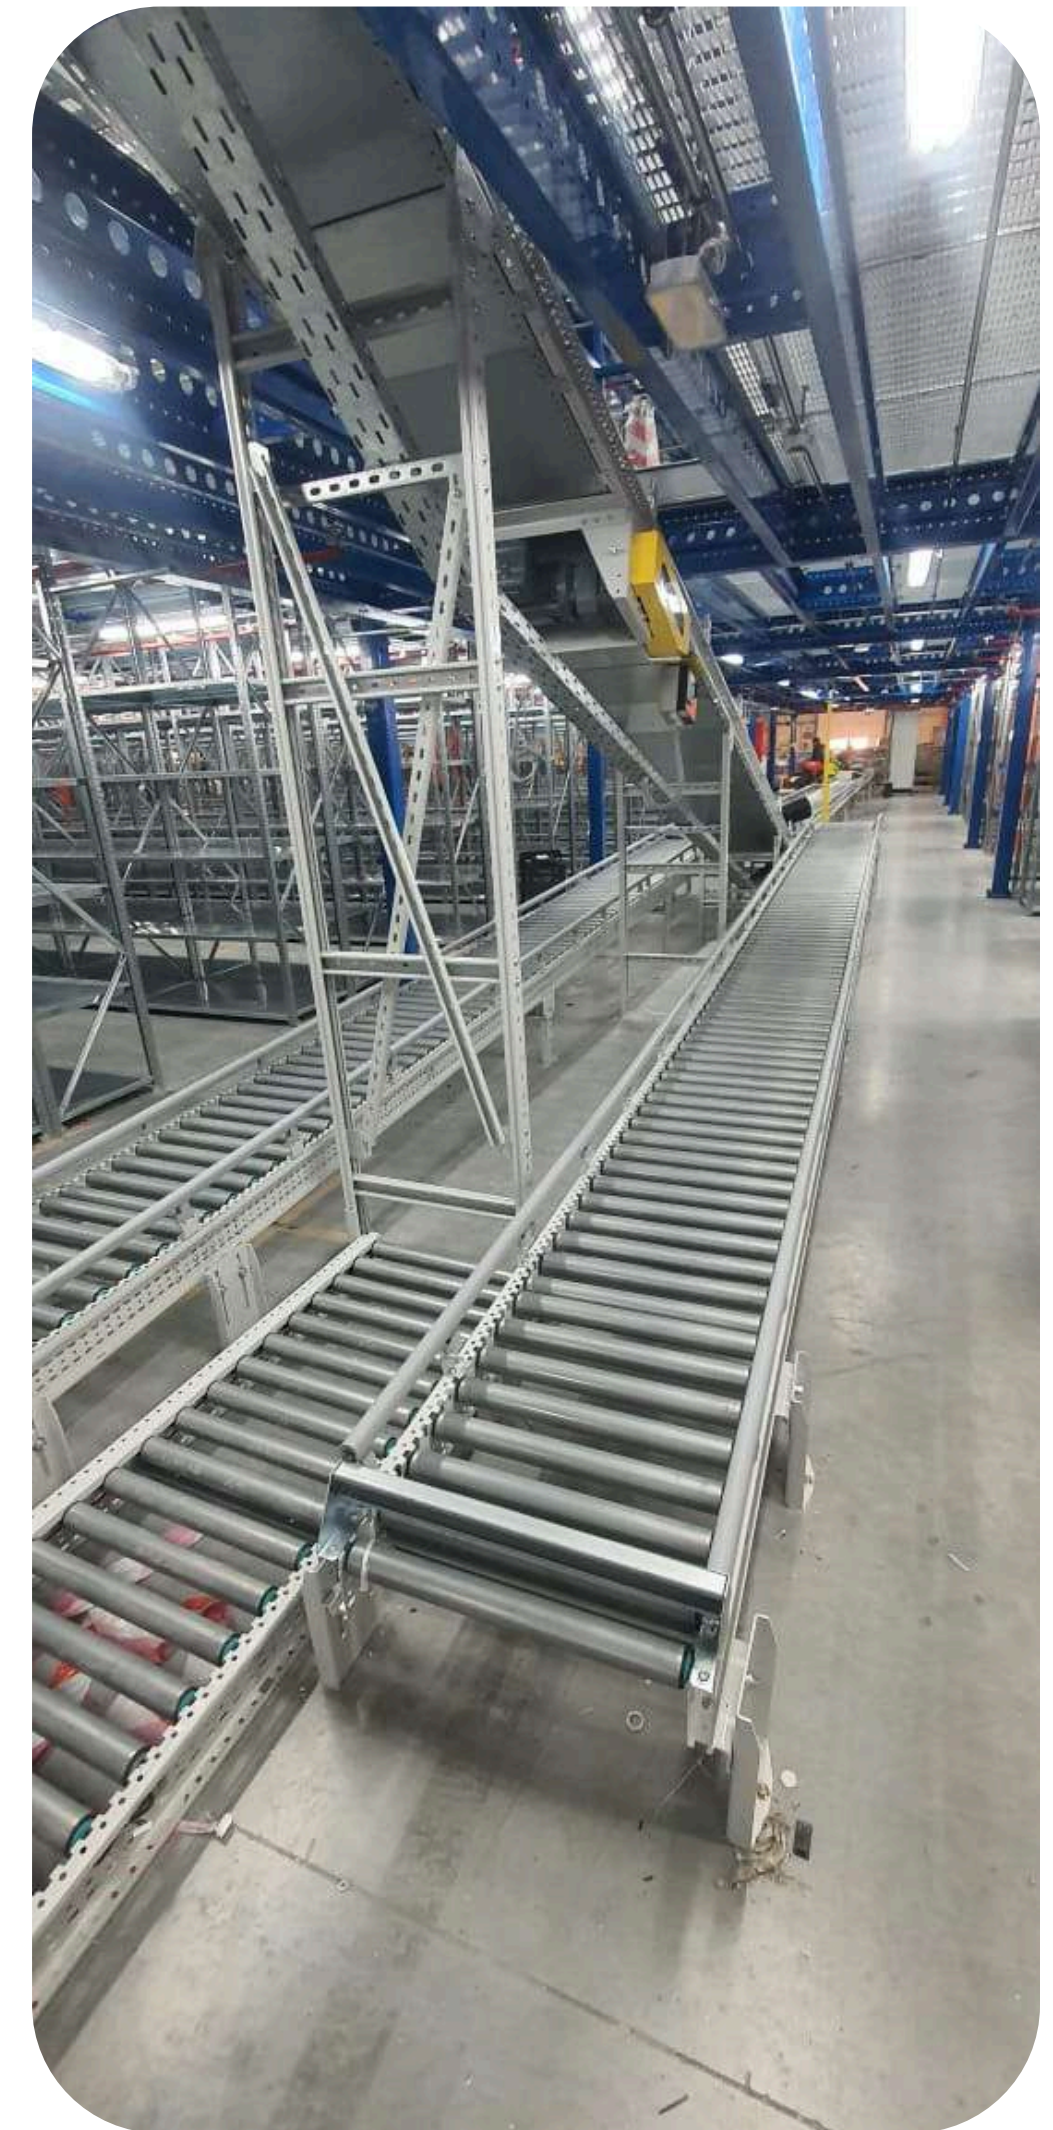

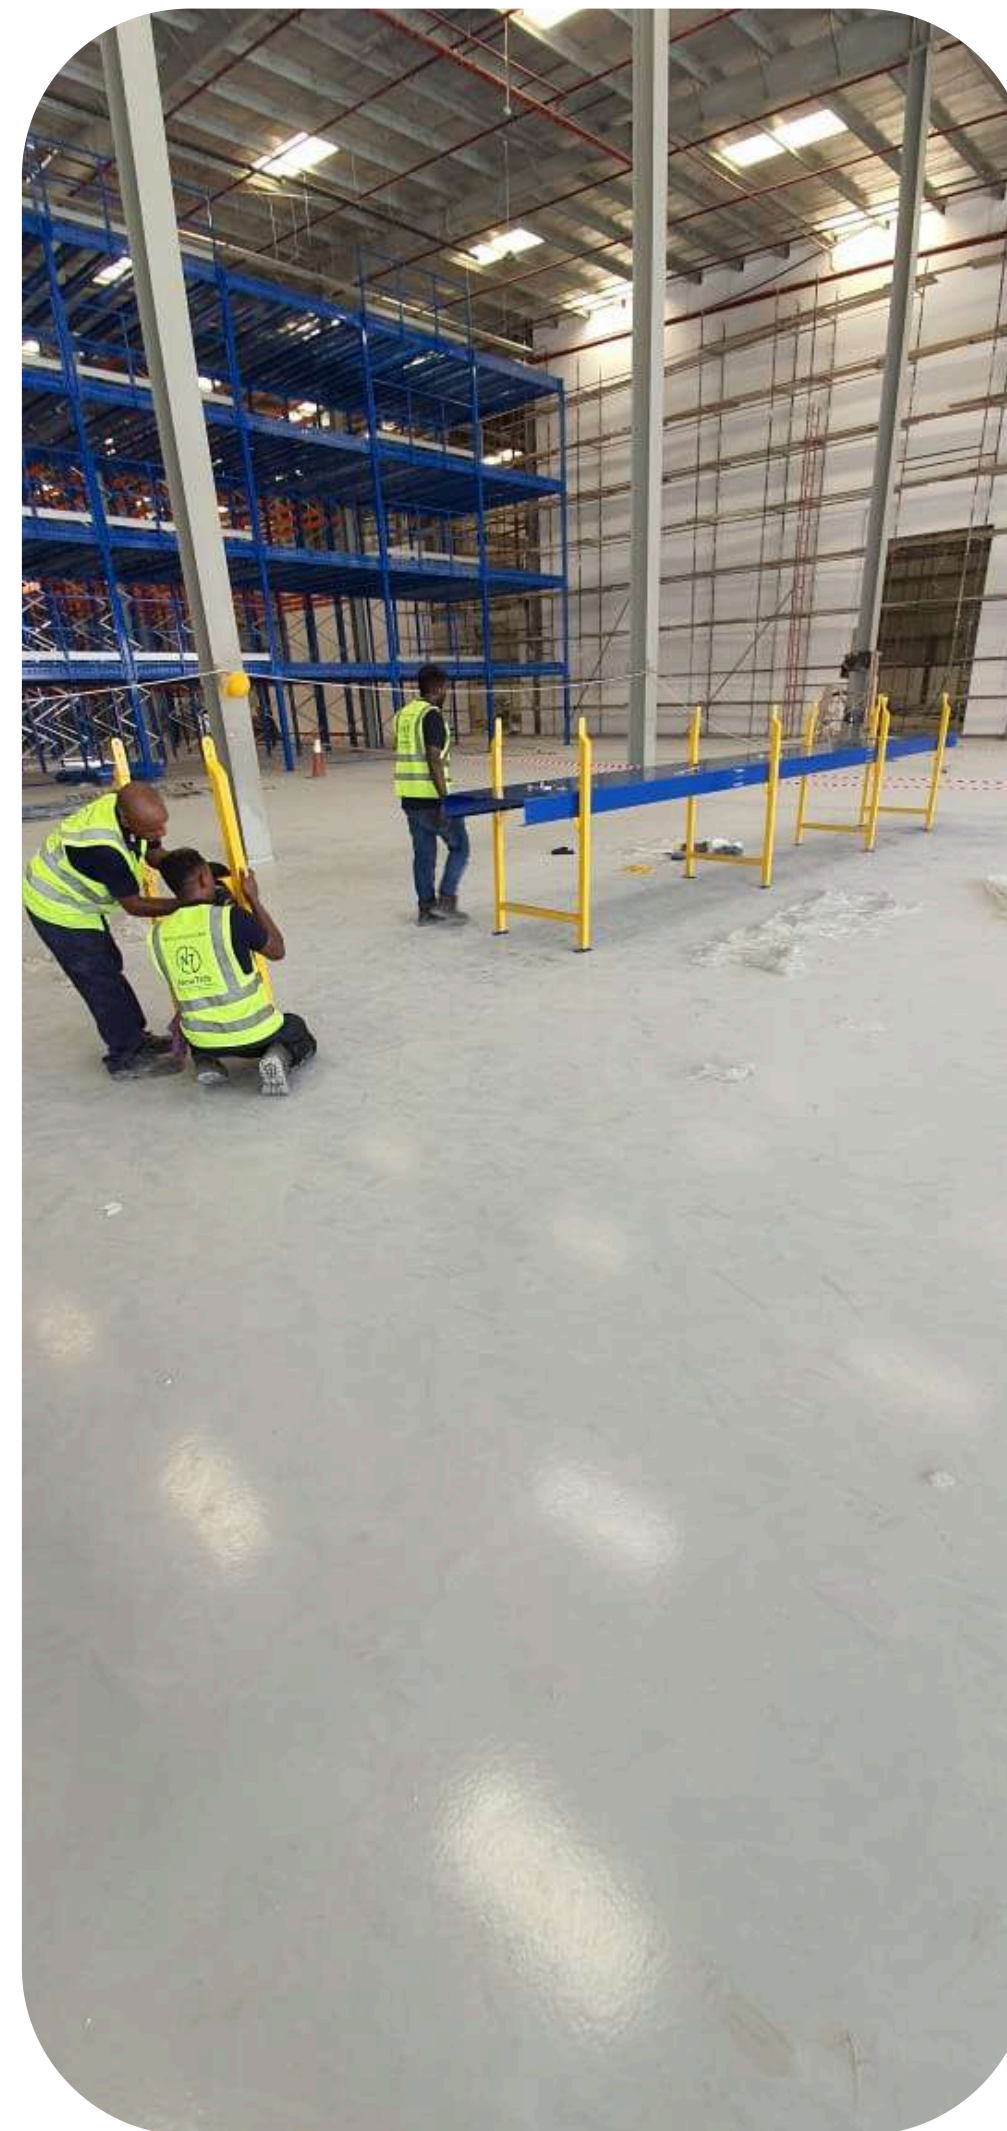

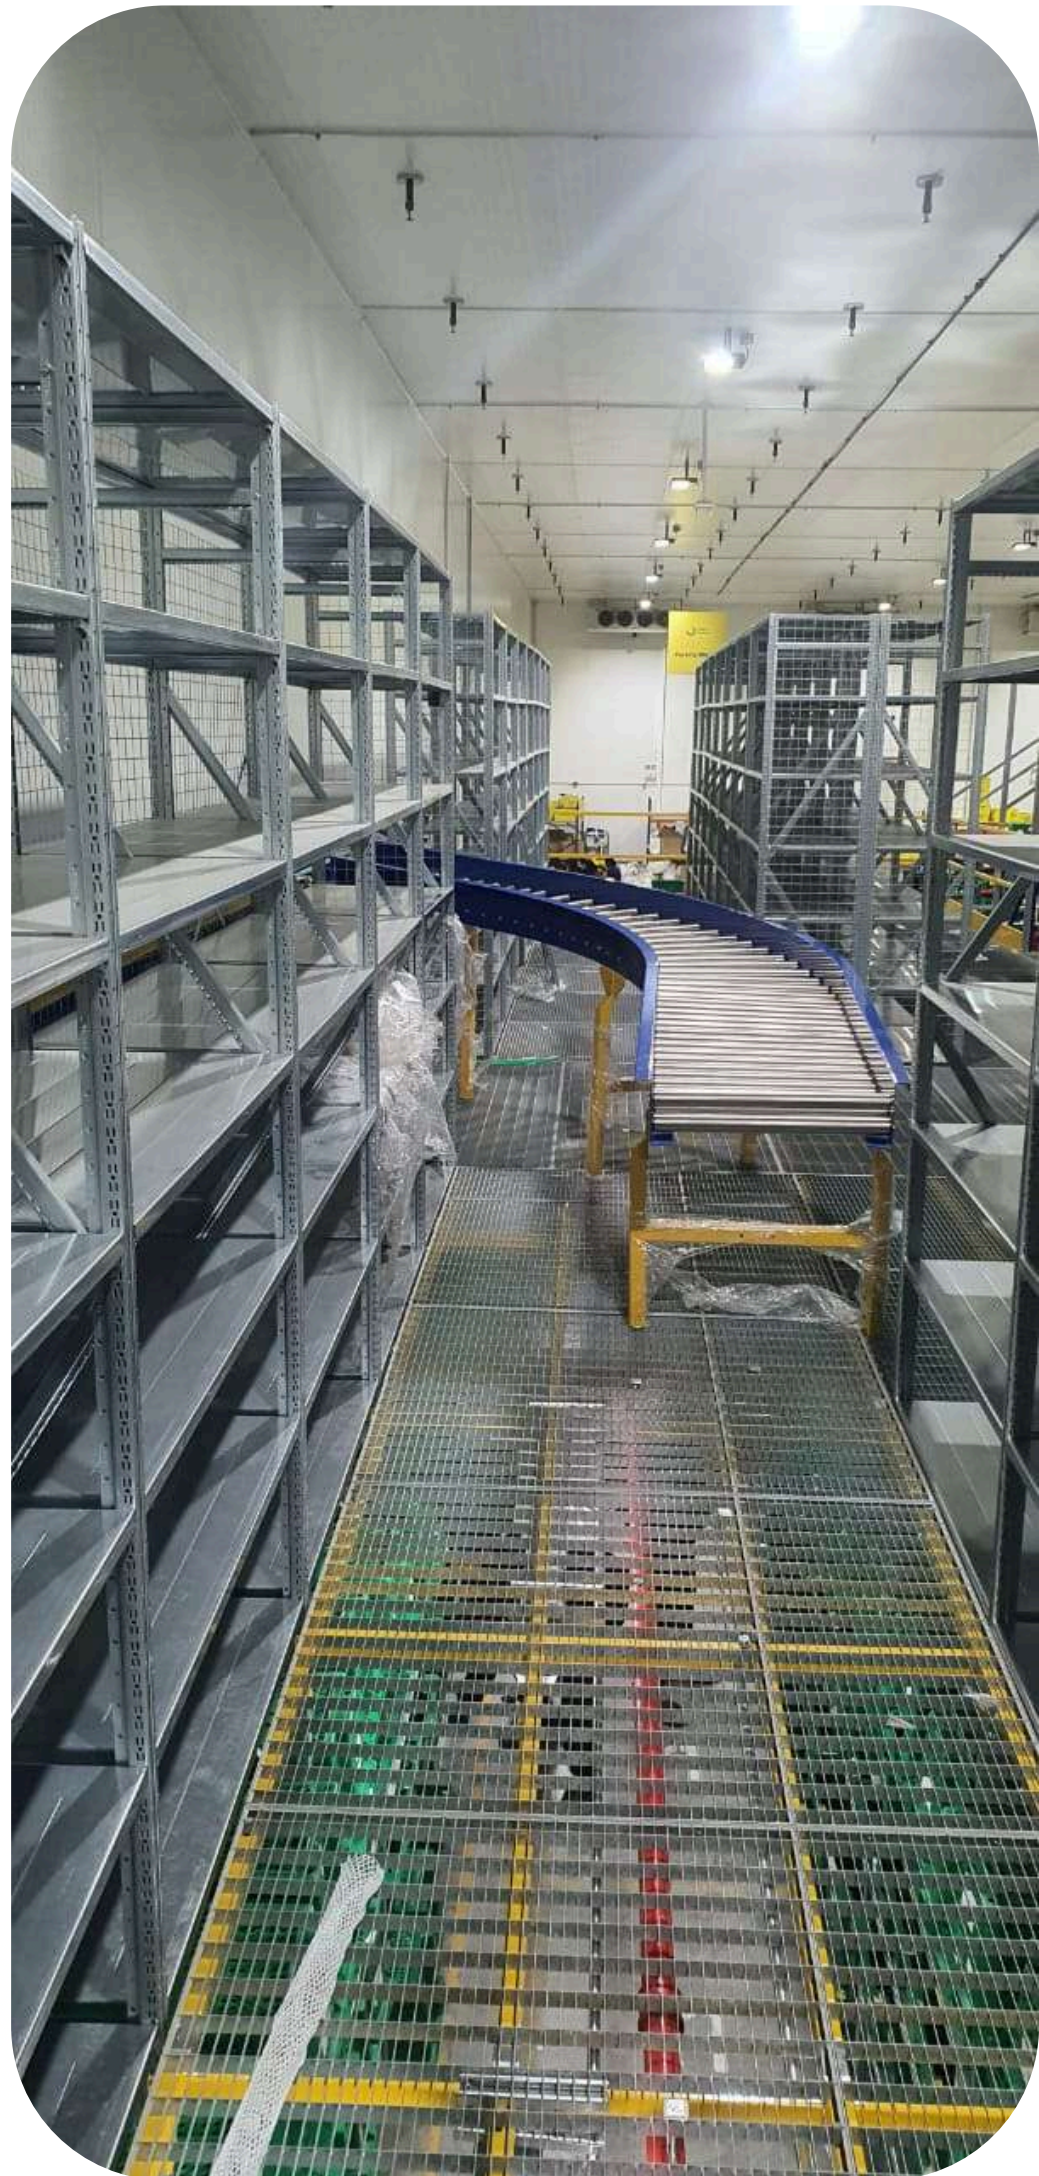

WRK - LIGHT DUTY RAIL FOR TOTES, BOXES, CARTONS
WRK's staggered wheel pattern conveys irregularly shaped loads. The angle frames are also ideal for floor mounted applications.
